- > Transfers and Subsidies = R13 million

5.1.1. Revenue by source

The total revenue earned for the financial year to-date is R 927.2 million, compared with the target of R831.4 million which resulted in a positive variance of R95.7million.

Reason for the variance

5.1.2. Operating Expenditure:

The total operational expenditure for the financial year to-date amounted to R909.5 million against the target of R961 million which resulted in a favorable variance of (R51.4million).

Reason for the variance

The positive variance is caused by the implementation of the cost saving measures which forms part of the Financial Recovery Plan and Budget Funding Plan.

5.1.3. Capital Expenditure:

The capital expenditure for the financial year to-date amounted to R187.5 million against the Budget of R249.8 million which resulted in a unfavorable variance of (R62.3 million).

The municipality is currently putting grant receipts into short term deposits until the funds are required to defray the related expenditures. The short-term deposit attracts better interest rates compared with the ordinary bank account.
