- 8.2. In particular, the provisions of section 45 (1) of the MFMA must be noted, these requiring that the Municipality may incur short –term debt only when necessary to bridge:
- 8.2.1. Shortfalls within a financial year during which the debt is incurred, in expectation of specific and realistic anticipated income to be received within that financial year;
 - or
 - 8.2.2. Capital needs within a financial year, to be repaid from specific funds to be received from enforceable allocations or long-term debt commitments.

8.3. Furthermore, as required by section 45 (4) of the MFMA, the Municipality must pay off short term debt within the financial year.

9. Overdraft Facility

9.1. Overdraft facilities are regulated by Section 45(3) of the MFMA.

10. Long Term Debt

10.1. The Municipality may incur long-term debt only in accordance with and in the circumstances contemplated in Section 46 of the MFMA.

10.2. Long-term debt may be incurred only for the purposes contemplated in Section 46(1) of the MFMA, namely:

10.2.1. Capital expenditure on property, plant or equipment to be used for the purpose of achieving the objects of local government, as set out in Section 152 of the Constitution; or

10.2.2. Re-financing existing long term debt, subject to section 46(5).

11. Council approval

Sections 45(2) and 46(2) require that short-term debt and long-term debt respectively may be incurred only if:

11.1. A resolution of the Council, signed by the Mayor, has approved the debt agreement;

11.2. The Accounting Officer has signed the agreement or other document which creates or acknowledges the debt.

12. Refinancing

12.1. Short-term debt may not be renewed or refinanced where that would have the effect of extending the short-term debt into a new financial year.

12.2. The Municipality may borrow in order to refinance long-term debt subject to the conditions contained in Section 46(5) of the MFMA.

13. Early repayment of loans

- 13.1. No loans will be repaid before due date unless there is a financial benefit to the Municipality.
- 13.2. The Municipality shall therefore assess the nature and extent of any benefits of early repayment before it makes any such early repayment.
- 13.3. Cognisance must be taken of any early repayment penalty clauses in the initial loan agreement, as part of the assessment.

14. Debt Repayment Period

- 14.1. As far as is practical, cognisance must be taken of the useful lives of the underlying assets to be financed by the debt for purposes of determining the duration of the debt.
- 14.2. Should it be established that it is cost effective to borrow the funds for a duration shorter than that of the life of the asset, the Municipality should endeavour to negotiate terms for the loan agreement on a shorter duration.

15. Provision for Redemption of Loans

- 15.1. The Municipality may set up sinking funds to facilitate loan repayments, especially when the repayment is to be met by a bullet payment on the maturity date of the loan.
- 15.2. Such sinking funds may be invested directly with the Lender's Bank.
- 15.3. The maturity date and accumulated value of such investment must coincide with the maturity date and amount of the intended loan that is to be repaid.

16. Non-Repayment or Non-Servicing of Loan

- 16.1. The Municipality must honour all its loan obligations.
- 16.2. Failure to effect prompt payment may jeopardise the Municipality's credit rating and adversely affect the ability of the Municipality to raise loans in the future loans at favourable interest rates.

16.3. In addition to ensuring the timely payment of the loans, the Municipality must adhere to the covenants stipulated in the loan agreements, including, in particular, the following where applicable:

16.3.1. furnishing audited annual financial statements;

16.3.2. maintaining long-term credit rating;

16.3.3. reporting of material changes in financial position of the Municipality.

18.2. Such security shall be given only pursuant to a resolution of the Council, which resolution must comply with the provisions of Section 48(3), (4) and (5) of the MFMA.

19.2. In addition the Disclosure Regulations establish detailed requirements for the disclosure of information to prospective lenders and investors. Regulations 2, 3, 4, 5, 15, 16 and 17 are of particular importance to the Municipality, given the nature of the borrowings which it intends to make.

20. Guarantees

"Accounting Officer" means the Municipal Manager of Ugu District Municipality

"Chief Financial Officer" means the Chief Financial Officer of Ugu District Municipality

"Council" means the Council of Ugu District Municipality

"MFMA" means the Municipal Financial Management Act, 2003 (Act No 56 of 2003)

"Municipality" means Ugu District Municipality

2. **OBJECTIVES OF THE POLICY**

The objectives of this Policy are to:

- a. Ensure that the Medium Term Revenue/Expenditure Framework (Annual Budget) of the Municipality is appropriately funded.
- b. Ensure that cash resources and reserves are maintained at the required levels to avoid unfunded liabilities.
- c. To achieve financial stability in order to provide sustainable levels of service delivery to the community.

3. **SCOPE AND INTENDED AUDIENCE**

- 3.1 The Funding and Reserves policy aims to ensure that the Municipality has sufficient funding in order to achieve its objectives through the implementation of its operating and capital budgets.
- 3.2 This Policy aims to set guidelines towards ensuring financial viability over both the short- and long-term which includes reserves requirements.

4. **REGULATORY FRAMEWORK**

The legislative framework governing funding of the Annual Budget is:

- a. Local Government Municipal Finance Management Act, 2003 (Act No. 56 of 2003); and,

- b. Local Government: Municipal Budget and Reporting Regulation, Regulation 393, published under Government Gazette 32141, 17 April 2009.

5. FUNDING OF THE ANNUAL BUDGET

5.1 An annual budget may only be funded from:

- a. Cash backed accumulated funds from previous years' surpluses and reserves not committed for any other purpose;
- b. Realistically anticipated revenues to be collected;
- c. Borrowed funds only for capital expenditure, and
- d. Grants and subsidies.

5.2 Realistic anticipated revenue projections must take into account:

- a. Projected revenue for the current year based on the previous year's billing information.
- b. Actual revenue collected in previous financial years.

6. OPERATING BUDGET

6.1 The operating budget provides funding to departments for their medium term expenditure as planned. The Municipality categorises services rendered to the community according to its revenue generating capabilities in line with the tariffs policy

- a) Trading services – services that generate surpluses that can be used for cross subsidisation to fund other services.
- b) Economic services – services that break even with no surpluses.
- c) Rates and general services – services that are funded by surpluses generated by trading services, and/or other revenues generated such as, interest received, grants and subsidies etc.

6.2 The operating budget is funded from the following main sources of revenue:

- a) Surpluses generated from service charges.
- b) Government grants and subsidies.
- c) Other revenue, interest received etc.
- d) Cash backed accumulated surpluses from previous years not committed for any other purposes.

6.3 The following guiding principles apply when compiling the operating budget:

- a) The annual budget must be balanced and funded.

- b) Growth parameters must be realistic taking into account the current economic conditions.
- c) Tariff adjustments must be realistic, taking into consideration the general inflation, affordability, bulk increases and the demand according to the approved Integrated Development Plan (IDP).
- d) Revenue from government grants and subsidies must be in line with allocations gazette in the Division of Revenue Act and provincial gazettes.
- e) Revenue from public contributions, donations or any other grants may only be included in the budget if there are acceptable documentation that guarantees the funds such as:
 - (i) Signed service level agreement;
 - (ii) Contract or written confirmation; or
 - (iii) Any other legally binding document.
- f) Projected revenue from service charges must be realistic based on current and past trends with expected growth considering the current economic conditions. The following factors must be considered for each service when applicable:
 - i. Metered services namely water:
 - aa) The consumption trends for the previous financial years;
 - bb) Envisaged water restrictions when applicable; and
 - cc) Actual revenue collected in previous financial years.
 - ii. Sewerage services:
 - aa) The actual number stands/consumer points receiving the service and the consumption trends per category; and
 - bb) Actual revenue collected in previous financial years.
- g) Rebates, exemptions or reductions for service charges are budgeted either as revenue foregone or as expenditure most often (grant) as per directive in MFMA Budget Circular 51 depending on the conditions thereof.
- h) Other projected income is charged in terms of the approved sundry tariffs and fines considering the past trends and expected growth for each category.

- i) Provision for revenue that will not be collected is made against the expenditure item bad debt and based on actual collection levels for the previous financial year and the projected annual non-payment rate.
- j) Interest received from actual long-term and or short-term investments are based on the amount reasonably expected to be earned on cash amounts available during the year according to the expected interest rate trends. The actual amount allocated for interest on investments is contributed to the Capital Replacement Reserve.
- k) Transfers from the accumulated surplus to fund operating expenditure will only be allowed for specific once-off projects and with no recurring operating expenditure resulting there from.
- l) Transfers from the accumulated surplus to offset the increased depreciation charges as a result of the implementation of GRAP 17 will be phased out over a number of years.
- m) A detailed salary budget is compiled on an annual basis. All funded positions are budgeted for in total and new and/or funded vacant positions are budgeted for six months only of the total package considering the recruitment process. As a guiding principle the salary budget should not exceed the parameter (percentage) of the aggregate operating budget component of the annual or adjustments budget, the parameters as may be contained in the budget circular issued by National Treasury from time to time.
- n) (Depreciation charges are fully budgeted for according to the asset register and to limit the impact of the implementation of GRAP 17 a transfer from the accumulated surplus is made) However the annual cash flow requirement for the repayment of borrowings must fully be taken into consideration with the setting of tariffs.
- o) To ensure the health of municipal assets, sufficient provision must be made for the maintenance of existing and infrastructure assets based on affordable levels, resulting that maintenance budgets are normally lower than the recommended levels. Therefore the mere reduction of maintenance budgets to balance annual budgets must carefully be considered. As a guiding principle repair and maintenance should constitute between 5 and 8% of the carrying value of the property, plant and equipment and should annually be increased incrementally until the required targets are achieved.
- p) Individual expenditure line items are to be revised each year when compiling the budget to ensure proper control over expenditure. Increases for these line items must be linked

to the average inflation rate and macro-economic indicators unless a signed agreement or contract stipulates otherwise.

7. CAPITAL BUDGET

- 7.1 The capital budget provides funding for the Municipality's capital programme based on the needs and objectives as identified by the community through the Integrated Development Plan and provides for the eradication of infrastructural backlogs, renewal and upgrading of existing infrastructure, new developments and enlargement of bulk infrastructure.
- 7.2 Capital expenditure may only be incurred on a capital project if:
- a. The funding for the project has been appropriated in the capital budget.
 - b. The total cost for the project has been approved by Council.
 - c. The future budgetary implications and projected cost covering all financial years until the project is operational has been considered.
 - d. The implications of the capital budget on municipal tax and tariff increases been considered.
 - e. The sources of funding are available and have not been committed for other purposes.
- 7.3 Provisions on the capital budget will be limited to availability of sources of funding and affordability. The main sources of funding for capital expenditure are:
- (a) Accumulated cash backed internal reserves;
 - (b) Borrowings;
 - (c) Government grants and subsidies; and
 - (d) Public donations and contributions.
- 7.4 The following guiding principles apply when considering sources of funding for the capital budget:
- (a) Government grants and subsidies:
 - i. Only gazette allocations or transfers as reflected in the Division of Revenue Act or allocations as per provincial gazettes may be used to fund projects;
 - ii. The conditions of the specific grant must be taken into consideration when allocated to a specific project; and
 - iii. Government grants and subsidies allocated to specific capital projects are provided for on the relevant department's operating budget to the extent the conditions will be met during the financial year.

- (b) In the case of public contributions, donations and/or other grants, such capital projects may only be included in the annual budget if the funding is guaranteed by means of:
 - i. Signed service level agreement;
 - ii. Contract or written confirmation; and/or
 - iii. Any other legally binding document.
- (c) Public donations, contributions and other grants are provided for on the relevant department's operating budget to the extent the conditions will be met during the financial year.
- (d) The borrowing requirements, to be used as a basis to determine the affordability of external loans over the Medium Term Income and Expenditure Framework. The ratios to be considered to take up additional borrowings:
 - i. Long-term credit rating of BBB;
 - ii. Interest cost to total expenditure to not exceed 8%;
 - iii. Long-term debt to revenue (excluding grants) not to exceed 50%;
 - iv. Collection rate of above 95%;
 - v. Percentages of capital charges to operating expenditure less than 18%.
- (e) Allocations to capital projects from cash backed internal reserves will be based on the available funding for each ring-fenced reserve according to the conditions of each reserve as follows:
 - i. Infrastructure projects to service new developments and the revenue is received through the sale of stands/land/site must be allocated to the capital reserve for services;
 - ii. Capital projects of a smaller nature such as office equipment, furniture, plant and equipment etc. must be allocated to the capital reserve from revenue which is funding from the revenue budget for that specific year. A general principle is that these types of capital expenditure should not exceed more than 1% of total operating expenditure;
 - iii. Capital projects to replace and/or upgrade existing assets may be allocated to the capital replacement reserve;
 - iv. Capital projects to upgrade bulk services will be allocated to the capital bulk contributions reserve for each service.

7.5 All capital projects have an effect on future operating budget therefore the following cost factors should be considered before approval:

- a) Additional personnel cost to staff new facilities once operational;
- b) Additional contracted services, that is, security, cleaning etc.
- c) Additional general expenditure, that is, services cost, stationery, telephones, material etc.
- d) Additional other capital requirements to the operate facility, that is, vehicles, plant and equipment, furniture and office equipment etc.
- e) Additional costs to maintain the assets;
- f) Additional interest and redemption in the case of borrowings;
- g) Additional depreciation charges;
- h) Additional revenue generation. The impact of expenditure items must be offset by additional revenue generated to determine the real impact on tariffs.

8. CASH FLOW MANAGEMENT

- 8.1 The availability of cash is the most important requirement for financial sustainability and must be closely monitored by the Chief Financial Officer. In doing so the Chief Financial Officer must ensure a minimum cash on hand to cover 90 days operational expenditure.
- 8.2 Surplus cash not immediately required for operational purposes must be invested in terms of the Municipality's Cash Banking and Investment Policy to maximise the return on cash.

9. MANAGEMENT OF DEBTORS

- 9.1 Debt is managed in terms of the Municipal credit control and debt collection policy.
- 9.2 The provision for bad debts is budgeted as an expense and is based on the projected annual non-payment rate for each service.

10. DONATIONS, GRANTS AND SUBSIDIES.

- 10.1 Revenue from donations or any other grants may only be included in the budget if there is acceptable documentation that guarantees the funds such as:
 - a) Signed service level agreement;
 - b) Contract or written confirmation; or
 - c) Any other legally binding document.
- 10.2 The conditions of the specific grant must be taken into consideration when allocated to a specific project. Government grants and subsidies allocated to specific capital projects are provided for on the relevant department's operating budget to the extent that the conditions will be met during the financial year.

11. THE CAPITAL REPLACEMENT RESERVE

11.1 All reserves must be “ring fenced” and “cash backed” as internal reserves within the accumulated surplus, except for provisions as allowed by GRAP.

11.2 Once the Municipality has reached its maximum gearing ability, no further borrowings can be taken up. The Municipality must invest in a capital replacement reserve. This reserve provides internal funding for the Municipality’s capital replacement and renewal programme. Contributions to the capital replacement reserve through the operating budget will be:

- a) Interest received on investments;
- b) Proceeds from sale of assets.

12. THE CAPITAL CONTRIBUTIONS

These supplement capital expenditure for the necessary expansions and upgrading of bulk infrastructure. Revenue generated from capital contributions is allocated to this reserve for each applicable service. The unspent contributions must be cash backed to ensure availability of cash when the infrastructure upgrades are required.

13. PROVISIONS

A provision is recognised when the Municipality has a present obligation as a result of a past event and it is probable, more likely than not, that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are revised annually and those estimates to be settled within the next twelve (12) months are treated as current liabilities.

The Municipality has the following provisions:

(a) *Leave provision*

Liabilities for annual leave are recognised as they accrue to employees. An annual provision is made from the operating budget to the leave provision. Due to the fact that not all leave balances are redeemed for cash, only 75% of the leave provision is cash backed.

(b) *Long services awards*

Municipal employees are awarded leave days according to years in service at year end. Due to the fact that not all long service leave balances are redeemed for cash, only 75% of the long service leave provision is cash backed.

(c) *Post employment medical care benefits*

The Municipality provides post-retirement medical care benefits by subsidising the medical aid contributions to retired employees and their legitimate spouses. The entitlement to post-retirement medical benefits is based on employees remaining in service up to retirement age and the completion of a minimum service period. The expected cost of these benefits is accrued over a period of employment.

14. OTHER ITEMS TO BE CASH BACKED

14.1 Unspent conditional grant funding

Revenue received from conditional grants is recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Amounts in relation to the unspent grant funding are therefore retained in cash and are not available to fund any other items on the operating or capital budget other than that for which it was intended for.

14.2 Consumer Deposits

Consumer deposits are partial security for a future payment. Deposits are considered a liability as the deposit is utilised once the agreement is terminated. The funds are owed to consumers and can therefore not be utilised to fund the operating or capital budget. Consumer deposits should be retained in cash and be ring-fenced.

15. POLICY REVIEW

This Policy will be reviewed annually to ensure that it complies with changes in applicable legislation and accounting standards.

16. COMPLIANCE AND ENFORCEMENT

- a. Violation of or non-compliance with this Policy may give a just cause of disciplinary steps to be taken.
- b. It will be the responsibility of Accounting Officer to enforce compliance with this Policy.

17. EFFECTIVE DATE

This Policy shall come to effect upon approval by Council of Ugu District Municipality.

1. Introduction

- (1) In terms of section 217 of the Constitution of the Republic of South Africa, 1996:

*"When an organ of state in the national, provincial or local sphere of government, or any other institution identified in national legislation, contracts for goods or services, it must do so in accordance with a system which is **fair, equitable, transparent, competitive and cost-effective.**"*

Supply Chain Management is a critical support function to ensure effective and efficient service delivery to achieve the mandates and objectives of the municipality. The diagram below graphically illustrates the various elements of the supply chain management system and how they interact with the overall SCM system.

Central to the SCM system are the four elements of Demand Management, Acquisitions Management, Logistics Management (Stores) and Disposals Management. Underpinning the entire SCM system are the two pillars of Supply Chain Performance and the Supplier Database. The SCM system has to be supported by effective and efficient SCM systems, policies and standard operating procedures that achieve the overall SCM strategy and objectives.

(2) Demand Management

Demand Management is the first phase of Supply Chain Management. It is the action of assessing 'what' good and/or service is needed, and then 'planning considering local content and product' when and how that good and/or service will be acquired.

Demand Management starts with the assessment of, and accepts input from:

- ✓ The Integrated Development Plan;
- ✓ Service Delivery Budget Implementation Plan;
- ✓ Approved Budget; and
- ✓ Existing Contract Register.

A critical output of demand management is the generation of annual procurement plans by the end-user Departments at the beginning of the financial year that are approved by the Accounting Officer. Procurement during the year will be guided by these procurement plans, with any deviations thereto approved by the Accounting Officer. The primary intention of these procurement plans are to identify goods and services required well in advance, to identify the appropriate procurement method to be deployed and to implement the necessary procurement processes timeously to ensure compliance and that goods and services are procured on time and when needed.

(3) Acquisitions Management

The word 'acquire' means to obtain or attain something which, in the Government context, may be a good, works and/or service that is required to fulfil a need. Acquisitions Management thus refers to the management of the entire process of acquiring that particular good, works and/or service which satisfies the need. This process covers the acquiring of the good, works and/or service by implementing the sourcing strategy determined by Demand Management and the administration thereof.

The primary objective of Acquisitions Management is to fulfil the demand determined by the Demand Management phase of Supply Chain Management. Acquisitions Management is thus driven by the Municipality's Procurement Plan and refers to a process of establishing: what will be acquired, when, how and from where it will be acquired, how much is required and at what price, as well as contracting with the vendor. The desired outcome is a well-managed process of acquisition that results in the satisfaction of the need that arose.

(4) Logistics Management

Logistics Management is the third element of Supply Chain Management and deals with the ordering and provisioning of goods, works and/or services within the Municipality. It is the process of determining when goods, works and/or services are procured, received, stored and distributed.

Typically this involves the processes of ordering, receiving, payment, provisioning and managing inventory.

(5) Disposal Management

Disposal is the final process when the institution needs to do away with unserviceable, redundant or obsolete movable assets done jointly by SCM& Asset Management. The Accounting Officer appoints a specific committee to deal with disposals, to make recommendations with regard to the disposal of any inventory item. It is the responsibility of the Accounting Officer or his/ her delegate to consider the recommendation of the appointed committee.

(6) Supply Chain Management Performance

Supply chain management performance is a critical component underpinning the entire SCM system. It is twofold in that, firstly, there should be effective monitoring of the SCM system. This requires effective and efficient monitoring of the implementation of and adherence to the SCM policy and standard operating procedures, as well as rigorous and robust monitoring of vendor performance.

Secondly, it entails monthly reporting to relevant structures within the Municipality, as well as external structures, as a key component of the Supply Chain Management framework. It interacts with each of the main functional areas represented in the framework and provides an overall look at the performance of the Municipality's Supply Chain Management. LEGISLATIVE MANDATES

The Constitution of the Republic of South Africa (Act No. 108 of 2006)	
Municipal Finance Management Act (No. 56 of 2003)	Preferential Procurement Policy Framework Act (No. 5 of 2000)
Broad Based Black Economic Empowerment Act 53 of 2003	The Promotional Access to Information Act (No. 2 of 2000)
Construction Industry Development Board Act (No. 38 of 2000)	The National School of Public Administration Act (No. 95 of 2000)
The Protected Disclosures Act (No. 26 of 2000)	State Information Technology Agency Act (Act No. 88 of 1998)
National Treasury Supply Chain Management Regulations	National Treasury Supply Chain Practice Notes and Circulars

- (2) The Municipality will comply with the following legislative requirements that the SCM unit of the Municipality is bound and guided by:

(a) The Constitution of the Republic of South Africa (Act No. 108 of 2006)

Section 217(1) provides the basis for procurement and determines that:

“When an organ of state in the national, provincial or local sphere of government, or any other institution identified in national legislation, contracts for goods or services, it must do so in accordance with a system which is fair, equitable, transparent, competitive and cost-effective”.

Subsection 217 (2) indicates that Section 217 (1) does not prevent the organs of state or institutions referred to in that subsection from implementing a procurement policy providing for:

- ✓ Categories of preference in the allocation of contracts; and
- ✓ The protection or advancement of persons, or categories of persons, disadvantaged by unfair discrimination.

Section 217(3) of The Constitution, 1996, further confers an obligation for National Legislation to prescribe a framework providing for preferential procurement to address the social and economic imbalances of the past.

(b) Municipal Finance Management Act (No. 56 of 2003)

The Municipal Finance Management Act 56 of 2000) was promulgated to regulate financial management in the Municipal spheres of government. Considerable powers are assigned to Accounting Officers and Accounting Authorities to enable them to manage their financial affairs within the parameters outlined by the prescribed Norms and Standards.

The onus of responsibility for Supply Chain Management is placed on the Accounting Officers/Authorities.

(c) Preferential Procurement Policy Framework Act (No. 5 of 2000) and its Regulations

The Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000) (PPPFA) and its accompanying Regulations were promulgated to prescribe a framework for a preferential procurement system to give effect to section 217(3) of The Constitution. The PPPFA and its Regulations provides for the implementation of a preference point system in the allocation of contracts for

categories of service providers and the promotion of goals, including socio-economic goals, to advance the interest of persons disadvantaged by unfair discrimination on the basis of race, gender or disability and implementing the programmes of the Reconstruction and Development Programme (RDP).

(d) Broad Based Black Economic Empowerment Act (BBBEE) (No. 53 of 2003)

The BBBEE Act allows the Minister of Trade and Industry to issue codes of practice that could include 'qualification criteria for preferential purposes for procurement and other economic activities'. Where BEE should at all times be included as a priority, at least until certain prescribed targets have been achieved, allowance should also be made for pursuing other policy priorities through PPPFA (such as job creation and SMME development).

(e) Construction Industry Development Board Act (No. 38 of 2000)

The Act is applicable to all organs of state involved in procurement relating to the construction industry. It establishes a means by which the Board can promote and implement policies, programmes, and projects aimed at procurement reform, standardization, and uniformity in procurement documentation, practices and procedures within the framework of the procurement policy of government. It establishes a national register of contractors to manage public sector procurement risk.

(f) The Promotion of Access to Information Act (No. 2 of 2000)

This Act gives effect to Section 32 of the Constitution (Access to Information) by setting out how anyone can get access to information held by the state. By so doing, it promotes transparency and prevents government from operating in secret.

(g) The Promotion of Administrative Justice Act (No. 3 of 2000)

This Act gives effect to Section 33 of the Constitution (Just Administrative Action). It ensures that decisions that affect the public are taken in a way that is procedurally fair and it gives people the right to request written reasons for decisions they disagree with. In this way, it creates greater transparency - people may be less tempted to act corruptly if they know they will have to explain themselves to the public.

(h) The Protected Disclosures Act (No. 26 of 2000)

The Act (often called the 'Whistleblowers Act') was passed to encourage employees to disclose information about unlawful and irregular behavior in the workplace. It offers protection from

victimisation for 'whistleblowers', as long as they meet the requirements and follow the procedure set out in the Act.

(i) National Treasury Supply Chain Management Regulations

The Municipality shall apply the Treasury Regulations issued in terms of the MFMA as it pertains to SCM. It serves as a formal requirement for the Municipality, to ensure the establishment and implementation of an effective and efficient Supply Chain Management Unit (SCMU).

It also stipulates the establishment of an effective and efficient SCMU within the office of the Chief Financial Officer (CFO), as an integral part of their financial systems.

A Supply Chain Management system must be utilised and provide at least for the following:

- ✓ Demand Management;
- ✓ Acquisitions Management;
- ✓ Logistics Management;
- ✓ Disposal Management;
- ✓ Risk Management; and
- ✓ Supply Chain Performance and Reporting.

(j) State Information Technology Agency Act, (Act No. 88 of 1998)

The State Information Technology Agency (SITA) Act, Act No 88 of 1998, as amended by Act 38 of 2002, requires that SITA must act as the procurement agency for the Municipality's information technology requirements.

(k) Other Legislative Requirements

In addition to the above mentioned legislative framework the Ugu District Municipality will also comply with the provisions of the following legislation that will impact on the supply chain environment:

- ✓ The Supply Chain Management Guide for Accounting Officers;

(4) Preference points system:

80/20 preference point system for acquisition of goods or services for Rand Value equal to or above R30 000 and up to R50 million inclusive of all applicable taxes.

- A tenderer may not be awarded points for B-BBEE status level of contributor if the tender documents indicates that the tenderer intends subcontracting more than 25% of the value of the contract to any other person not qualifying for at least the points that the tenderer qualifies for, unless the intended subcontractor is an EME that has the capability to execute the subcontract.
- If the price quoted by the tenderer scoring the highest points is not market related , the organ of the state may not award the contract to that tenderer.
- The organ of the state may negotiate a market related price with the tenderer scoring the highest points or cancel the tender;
- If the tenderer does not agree to the market related price, negotiate the market related price with the second highest points or cancel the tender;
- If the tenderer scoring the second highest points does not agree with to a market related price, negotiate a market related price with the tenderer scoring the third highest points or cancel the tender;
- If a market related price is not agreed as envisaged in the above paragraphs organ of the state must cancel the tender.

90/10 preference point system for acquisition of goods or services for Rand Value above R50 million inclusive of all applicable taxes.

- A tenderer may not be awarded points for B-BBEE status level of contributor if the tender documents indicates that the tenderer intends subcontracting more than 25% of the value of the contract to any other person not qualifying for at least the points that the tenderer qualifies for, unless the intended subcontractor is an EME that has the capability to execute the subcontract;
- If the price quoted by the tenderer scoring the highest points is not market related , the organ of the state may not award the contract to that tenderer;
- The organ of the state may negotiate a market related price with the tenderer scoring the highest points or cancel the tender;
- If the tenderer does not agree to the market related price, negotiate the market related price with the second highest points or cancel the tender;

- If the tenderer scoring the second highest points does not agree with to a market related price, negotiate a market related price with the tenderer scoring the third highest points or cancel the tender;
- If a market related price is not agreed as envisaged in the above paragraphs organ of the state must cancel the tender.

(5) **Broad-Based Black Economic Empowerment (B-BBEE) Status Level Certificates**

- (i) Bidders are required to submit original and valid B-BBEE Status Level Verification Certificates or certified copies thereof together with their bids, to substantiate their B-BBEE rating claims.
- (ii) Bidders who do not submit B-BBEE Status Level Verification Certificates or are non-compliant contributors to B-BBEE do not qualify for preference points for B-BBEE but should not be disqualified from the bidding process. They will score points out of 90 or 80 for price only and zero (0) points out of 10 or 20 for B-BBEE.
- (iii) A trust, consortium or joint venture must submit a consolidated B-BBEE Status Level Verification Certificate for every separate bid.
- (iv) Public entities and tertiary institutions must also submit B-BBEE Status Level Verification Certificates together with their bids.
- (v) If the Municipality is already in possession of a valid and original or certified copy of a bidder's B-BBEE Status Level Verification Certificate that was obtained for the purpose of establishing the database of possible suppliers for price quotations or that was submitted together with another bid, it is not necessary to obtain a new B-BBEE Status Level Verification Certificate each time a bid is submitted from the specific bidder. Such a certificate may be used to substantiate B-BBEE rating claims provided that the closing date of the bid falls within the expiry date of the certificate that is in the Municipality's possession.
- (vi) Each time this provision is applied, cross-reference must be made to the B-BBEE Status Level Verification Certificate already in possession for audit purposes.
- (vii) The Accounting Officer must ensure that the B-BBEE Status Level Verification Certificates submitted are issued by the following agencies:
 - ✓ Bidders other than EMEs
 - Verification agencies accredited by SANAS; or
 - Registered auditors approved by IRBA.
 - ✓ Bidders who qualify as Exempted Micro Enterprises
 - Accounting officers as contemplated in the Close Corporations Act, Act No. 69 of 1984; or
 - Verification agencies accredited by SANAS; or
 - Registered auditors. (Registered auditors do not need to meet the prerequisite for

IRBA's approval for the purpose of conducting verification and issuing EMEs with B-BBEE Status Level Certificates)

(6) Planning, Stipulation of Preference Point System to be utilised and the Determination of Designated Sectors

Prior to the invitation of bids, the Accounting Officer is required to:

- (i) Properly plan for the provision of services, works or goods in order to ensure that the resources that are required to fulfil the needs identified in the strategic plan of the Municipality are delivered at the correct time, price, place and that the quantity and quality will satisfy those needs.
- (ii) As far as possible, accurately estimate the costs for the provision of the required services, works or goods. This is in order to determine and stipulate the appropriate preference point system to be utilised in the evaluation and adjudication of the bids and to ensure that the prices paid for the services, works and goods are market related.
- (iii) Estimated costs can be determined by conducting an industry and commodity analysis whereby prospective suppliers may be approached to obtain indicative market related prices that may be utilised for benchmarking purposes. Based on the findings, the relevant preference point system (80/20 or 90/10) to be utilised for the evaluation of the bid must be stipulated in the bid documents.
- (iv) Determine whether the services, works and/or goods for which an invitation is to be made, has been designated for local production and content in terms of Regulation 9 of the Preferential Procurement Regulations. This will entail the inclusion of a specific condition in the bid documents that only locally produced services, works or goods or locally manufactured goods with a stipulated minimum threshold for local production and content will be considered. This will subsequently have a direct impact on the evaluation of the bid.

Pre-qualification Criteria For Preferential Procurement

- (i) If an organ of state decides to apply pre-qualifying criteria to advance certain designated groups, that organ of state must advertise the tender with a specific tendering condition that only one or more of the following tenderers may respond.
- (ii) A tenderer having a stipulated minimum B-BBEE status level of contributor;
- (iii) An Exempted Micro Enterprise (EME) or Qualifying Small Business (QSE)
- (iv) A tenderer subcontracting a minimum of 30% to EME or QSE which is at least 51% owned by black people who are youth or women or people with disabilities or black people who are living in rural or underdeveloped areas or townships.
- (v) A tenderer subcontracting a minimum of 30% to cooperatives which is at least 51% owned by black people who are military veterans;

- (vi) A tender that fails to meet any pre-qualifying criteria stipulated in the tender documents is an unacceptable tender.

(7) Bids Based On Functionality as a Criterion

- (i) In general, not all bids should be invited on the basis of functionality as a criterion. The need to invite bids on the basis of functionality as a criterion depends on the nature of the required commodity or service taking into account quality, reliability, viability and durability of a service and the bidder's technical capacity and ability to execute a contract.
- (ii) When the Municipality invites a bid that will also be evaluated on the basis of functionality as a criterion, the Accounting Officer of his/her delegate must clearly specify the following aspects in the bid documents:
 - ✓ Evaluation criteria for measuring functionality.
 - ✓ The evaluation criteria may include criteria such as the bidder's relevant experience for the assignment, the quality of the methodology; the qualifications of key personnel; transfer of knowledge, etc.
 - ✓ Weight of each criterion.
 - ✓ The weight that is allocated to each criterion should not be generic but should be determined separately for each bid on a case by case basis.
 - ✓ Applicable value.
 - ✓ The applicable values that will be utilised when scoring each criterion should be objective. As a guide, values ranging from 1 being poor, 2 being average, 3 being good, 4 being very good and 5 being excellent, may be utilised.
 - ✓ Minimum qualifying score for functionality.
 - ✓ The minimum qualifying score that must be obtained for functionality in order for a bid to be considered further should not be generic. It should be determined separately for each bid on a case by case basis. The minimum qualifying score must not be prescribed so low that it may jeopardize the quality of the service required nor so high that it may be restrictive to the extent that it jeopardizes the fairness of the SCM system.

(8) Local Production and Content

- (i) Designated Sectors
 - ✓ Bids in respect of services, works or goods that have been designated for local production and content, must contain a specific bidding condition that only locally produced goods, services or works or locally manufactured goods with a stipulated minimum threshold for local production and content will be considered.

- ✓ The Accounting Officer or His/her delegate must stipulate in bid invitations that the exchange rate to be used for the calculation of local content (local content and local production are used interchangeably) must be the exchange rate published by the SARB at 12:00 on the date, one week (7 calendar days) prior to the closing date of the bid.
- ✓ Only the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:201x must be used to calculate local content.

The following formula to calculate local content must be disclosed in the bid documentation:

The local content (LC) as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 201x as follows:

$$LC = 1 - \left(\frac{x}{y} \right) \times 100$$

Where

x = imported content

y = bid price excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by the SARB at 12:00 on the date, one week (7 calendar days) prior to the closing date of the bid.

- ✓ For the purpose of the paragraphs above, the SBD 6.2 (Declaration Certificate for Local Content) must form part of the bid documentation.
- ✓ The Declaration Certificate for Local Content (SBD 6.2) must be completed and duly signed. The Accounting Officer or his/her delegate is required to verify the accuracy of the rates of exchange quoted by the bidder in paragraph 6.4.3 of this Certificate.

Non-Designated Sectors

- ✓ Where there is no designated sector, the Accounting Officer or his/her delegate may decide to include a specific bidding condition that only locally produced goods, services or works or locally manufactured goods with a stipulated minimum threshold for local production and content, will be considered, on condition that such prescript and threshold(s) are in accordance with the specific directives issued for this purpose by the National Treasury in consultation with the DTI.
- ✓ Accounting Officer or his/her delegate must stipulate in bid invitations that the exchange rate to be used for the calculation of local content must be the exchange rate published by

the SARB at 12:00 on the date, one week (7 calendar days) prior to the date of closure of the bid.

- ✓ Only the South African Bureau of Standards approved technical specification number SATS 1286:201x as indicated above must be used to calculate local content.
- ✓ For the purpose of the paragraphs above, the SBD 6.2 (Declaration Certificate for Local Content) must form part of the bid documentation.
- ✓ The Declaration Certificate for Local Content (SBD 6.2) must be completed and duly signed. Accounting Officer or his/her delegate is required to verify the accuracy of the rate(s) of exchange quoted by the bidder in paragraph 4.1 of this Certificate.
- ✓ Any enquiries in respect of Local Production and Content may be directed to the Department

- ✓ of Trade and Industry (DTI) as follows:

Ms Basani Baloyi

Director: Industrial Development Division (IDD) Tel: (012) 394 3851

Fax: (012) 394 2851

E-mail: BBaloyi@thedti.gov.za

Local Production and Content:

- DTI in consultation with National Treasury can designate a sector, sub-sector or industry in accordance with national development and industrial policies for local production and content, where only locally produced services or goods or locally manufactured goods meet the stipulated minimum threshold for local production and content.
- Organ of State must in the case of a designated sector, advertise the invitation to tender with a specific condition that only locally manufactured goods, only tenderers who meet the stipulated minimum threshold for local production and content will be considered.
- If there is no designated sector, an organ of state may include as a specific condition of the tender that only locally produced services or goods or locally manufactured goods with a stipulated threshold for local production and content will be considered.*+
- A tenderer that fails to meet the minimum stipulated threshold for local production and content is an unacceptable tender.

(9) Services Rendered by Tertiary Institutions and Public Entities

- (i) Based on thorough analysis of the market, institutions may invite written price quotations for services that can only be provided by tertiary institutions from the identified tertiary institutions.
- (ii) Where the required service can be provided by tertiary institutions, public entities and enterprises from the private sector, the Municipality must invite competitive bids.

(10) Discounts

- (i) When calculating comparative prices.
- (ii) Unconditional discounts must be taken into account for evaluation purposes.
- (iii) Conditional discounts must not be taken into account for evaluation purposes but should be implemented when payment is affected.

(11) Sub-Contracting

Subcontracting as the condition of tender:

- (i) If feasible to subcontract for a contract above R30 million, an organ of state must apply subcontracting to advance designated groups.
- (ii) Tenderer must subcontract a minimum of 30% of the value of the contract to the black designated group.
- (iii) The organ of state must make available the list of all suppliers registered on a database approved by National Treasury to provide the required goods or services in respect of the applicable designated groups from which the tenderer must select a supplier.

Subcontracting after an award of tender

- (i) A person awarded a contract may only enter into a subcontracting arrangement with the organ of the state.
- (ii) For local production and content a person awarded a contract in relation to the designated sector, may not subcontract in such a manner that the local production and content of overall value of the contract is reduced to below the stipulated minimum threshold.
- (iii) A person awarded a contract may not subcontract more than 25% of the value of the contract to any other enterprise that does not have an equal or higher B-BBEE status level of contributor than the person concerned, unless the contract is subcontracted to an EME (Exempted Micro Enterprise) that has the capability to execute the subcontract.

(12) Evaluation of Bids Based on Functionality as a Criterion

Bids invited on the basis of functionality as a criterion must be evaluated in two stages - first functionality must be assessed and then in accordance with the 80/20 or 90/10 preference point systems prescribed in Preferential Procurement Regulations 5 and 6. The evaluation must be done as follows:

- (i) First stage - Evaluation of functionality
 - ✓ Bids must be evaluated in terms of the evaluation criteria embodied in the bid documents. The amendment of evaluation criteria, weights, applicable values and/or the minimum qualifying score for functionality after the closure of bids is not allowed as this may jeopardise the fairness of the process.
 - ✓ A bid will be considered further if it achieves the prescribed minimum qualifying score for functionality.
 - ✓ Bids that fail to achieve the minimum qualifying score for functionality must be disqualified.
 - ✓ Score sheets should be prepared and provided to panel members to evaluate the bids.
 - ✓ The score sheet should contain all the criteria and the weight for each criterion as well as

the values to be applied for evaluation as indicated in the bid documents.

- ✓ Each panel member should after thorough evaluation independently award his /her own value to each individual criterion.
- ✓ Score sheets should be signed by panel members and if necessary, written motivation may be requested from panel members where vast discrepancies in the values awarded for each criterion exist.
- ✓ If the minimum qualifying score for functionality is indicated as a percentage in the bid documents, the percentage scored for functionality may be calculated as follows:
 - The value awarded for each criterion should be multiplied by the weight for the relevant criterion to obtain the score for the various criteria;
 - The scores for each criterion should be added to obtain the total score; and
 - The following formula should be used to convert the total score to percentage for functionality:

$$Ps = \frac{So}{Ms} \times 100$$

Ps = percentage scored for functionality by bid under consideration
 So = total score of bid under consideration
 Ms = maximum possible score

- ✓ The percentage of each panel member should be added and divided by the number of panel members to establish the average percentage obtained by each bidder for functionality.

(ii) Second stage - Evaluation in terms of the 80/20 or 90/10 preference point systems

- ✓ Only bids that achieve the minimum qualifying score / percentage for functionality must be evaluated further in accordance with the 80/20 or 90/10 preference point systems prescribed in Preferential Procurement Regulations 5 and 6.
- ✓ Where appropriate, prices may be negotiated only with short listed or preferred bidders. Such negotiations must not prejudice any other bidders.

(13) The Preference Point System

(i) Step 1: Calculation of points for price

- ✓ The PPPFA prescribes that the lowest acceptable bid will score 80 or 90 points for price. Bidders that quoted higher prices will score lower points for price on a pro-rata basis.
- ✓ The formulae to be utilised in calculating points scored for price are as follows:

80/20 Preference point system [(for acquisition of services, works or goods up to a Rand value of R1million) (all applicable taxes included)];

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for comparative price of bid or offer under consideration.

P_t = Comparative price of bid or offer under consideration.

P_{\min} = Comparative price of lowest acceptable bid or offer.

90/10 Preference point system [(for acquisition of services, works and/or goods with a Rand value above R1million) (all applicable taxes included)].

$$P_s = 90 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for comparative price of bid or offer under consideration.

P_t = Comparative price of bid or offer under consideration.

P_{\min} = Comparative price of lowest acceptable bid or offer.

- ✓ Points scored must be rounded off to the nearest 2 decimal places.

(ii) *Step 2: Calculation of points for B-BBEE status level of contributor*

- ✓ Points must be awarded to a bidder for attaining the B-BBEE status level of contribution in accordance with the table below:

B-BBEE Status Level of Contributor	Number of Points (90/10 System)	Number of Points (80/20 System)
---------------------------------------	------------------------------------	------------------------------------

1	10	20
2	9	18
3	8	16
4	5	12
5	4	8
6	3	6
7	2	4
8	1	2
Non - Contributor	0	0

Figure 1: B-BBEE Status Level of Contributor

- ✓ A bid must not be disqualified from the bidding process if the bidder does not submit a certificate substantiating the B-BBEE status level of contribution or is a non-compliant contributor. Such a bidder will score zero (0) out of a maximum of 10 or 20 points respectively for B-BBEE.

(iii) *Calculation of total points scored for price and B-BBEE status level of contribution*

- ✓ The points scored for price must be added to the points scored for B-BBEE status level of contribution to obtain the bidder's total points scored out of 100.

(14) Evaluation of Bids that Scored Equal Points

- (i) In the event that two or more bids have scored equal total points, the successful bid must be the one that scored the highest points for B-BBEE.
- (ii) If two or more bids have equal points, including equal preference points for B-BBEE, the successful bid must be the one scoring the highest score for functionality, if functionality is part of the evaluation process.
- (iii) In the event that two or more bids are equal in all respects, the award must be decided by the drawing of lots.

(15) Cancellation and Re-Invitation of Bids

- (i) In the application of the 80/20 preference point system, if all bids received exceed R50 million, the bid must be cancelled. If one or more of the acceptable bid(s) received are within the R50 million threshold, all bids received must be evaluated on the 80/20 preference point system.
- (ii) In the application of the 90/10 preference point system, if all bids received exceed R50 million, the bid must be cancelled. If one or more of the acceptable bid(s) received are within the R50 million threshold, all bids received must be evaluated on the 90/10 preference point system.
- (iii) If a bid was cancelled in terms of the above paragraphs, the correct preference point system must be stipulated in the bid documents of the re-invited bid.
- (iv) The Accounting Officer of his/her delegate may, prior to the award of a bid, cancel the bid if:
 - ✓ Due to changed circumstances, there is no longer a need for the services, works or goods requested. [Accounting Officer must ensure that only goods, services or works that are required to fulfil the needs of the Municipality are procured]; or
 - ✓ Funds are no longer available to cover the total envisaged expenditure. [Accounting Officer must ensure that the budgetary provisions exist]; or
 - ✓ No acceptable bids are received. [If all bids received are rejected, the Municipality must review the reasons justifying the rejection and consider making revisions to the specific conditions of contract, design and specifications, scope of the contract, or a combination of these, before inviting new bids].
- ✓ An organ of state may only with the prior approval of the relevant treasury cancel a tender invitation for the second time.

(16) Award of Contracts

- (i) A contract must be awarded to the bidder who scored the highest total number of points in terms of the preference point system.
- (ii) In exceptional circumstances a contract may, on reasonable and justifiable grounds, be awarded to a bidder that did not score the highest number of points. The reasons for such a decision must be approved and recorded for audit purposes and must be defensible in a court of law.

(17) Resolution of disputes, objections, complaints and queries

- (i) Once the Accounting Officer agrees with the recommendation of the BAC, the intention to award a bid must be advertised in the Government Gazette, selected news media and the Municipality's

website within 5 days, allowing for disputes, objections, complaints and queries to be lodged with the Municipality within 14 days.

- (ii) An independent and impartial person, not directly involved in the supply chain management process, must be appointed by the Accounting Officer. The independent, impartial person must :
 - ✓ advise the Accounting Officer, within 3 days, of any disputes, objections, complaints and queries lodged so that the award process can be suspended until the dispute, objection, complaint or query has been investigated;
 - ✓ assist in resolving disputes between the Municipality and other persons regarding:
 - Any decisions or actions taken in the implementation of the supply chain management system;
 - Any matter arising from a contract awarded in the course of the supply chain management system; or
 - ✓ deal with objections, complaints or queries regarding any such decisions or actions or any matters arising from such contract;
 - ✓ issue a formal report with recommendations to the Accounting Officer.
- (iii) Once the independent, impartial person has completed the investigation, s/he must issue a formal report to the Accounting Officer. The Accounting Officer must consider the recommendations of the independent, impartial person and make a determination on the way forward. The way forward could be to award the bid, refer the bid back for re-evaluation and re-adjudication or even to cancel and re-advertise the bid. Should the Accounting Officer award the bid after the appeals processes have been followed, the successful bidder can be accordingly notified.

(18) Remedies

- (i) The Accounting Officer must act against the bidder or person awarded the contract upon detecting that the B-BBEE status level of contribution has been claimed or obtained on a fraudulent basis or any of the contract conditions have not been fulfilled.
- (ii) The Municipality may, in addition to any other remedy that it may have against the bidder or person:
 - ✓ Disqualify the bidder or person from the bidding process;
 - ✓ Recover all costs, losses or damages it has incurred or suffered as a result of that person's conduct;
 - ✓ Cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;

- ✓ Restrict the bidder or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, from obtaining business from any organ of state for a period not exceeding 10 years, after applying the audi alteram partem (hear the other side) rule; and
 - ✓ Forward the matter for criminal prosecution.
- (iii) The Municipality must involve their legal services when any of the remedies are applied.
- (iv) The details of any restrictions imposed on bidders, persons or contractors must be forwarded to the National Treasury for inclusion on the central Database of Restricted Suppliers.

(19) Tax Clearance

No bid may be awarded to any bidder whose tax matters have not been declared by the SARS to be in order.

(20) Bidding Documents

- (i) The following bidding documents, which have been amended, where necessary, in accordance with the prescripts of the Preferential Procurement Regulations, 2011, and MFMA Circular No.25 must be used:

MBD Description	Document Number
✓ Invitation to Bid	MBD 1

- (ii) The Municipality must customize and utilize the bidding documents by incorporating the Municipality's name, logo and contact details.
- (iii) Other changes to the MBDs, such as variations necessary to address specific contract and project issues, should be kept to a minimum. The standard wording for the Application for Tax Clearance Certificates (MBD 2) and the National Industrial Participation Programme (MBD 5) should not be amended. The formal contract document (MBD 7.1 to 7.3) should not form part of the bidding documents issued to every prospective bidder, but should be made applicable only to the successful bidder after adjudication and award of the bid.

- (iv) The relevant MBDs must be utilized for procurement by means of written price quotations, advertised competitive bids or proposals.

(21) Sale and Letting of Assets

- (i) The preference point system prescribed in the PPPFA and the Preferential Procurement Regulations, 2011 are not applicable to the sale and letting of assets.
- ✓ In instances where assets are sold or leased by means of advertised competitive bids or written price quotations or by auctions the award must be made to the highest bidder.
 - ✓ The tax clearance requirement applies to the sale and letting of assets as well.
