Map 1.1.2: Ugu District Traditional Authorities

BACKGROUND

In compliance with the Local Government Municipal Systems Act, 32 of 2000, the Ugu District Council adopted a five-year Integrated Development Plan in June 2018. This plan is meant to provide a basis for both public and private sector investment in the district and is reviewed on an annual basis.

1.1 Who Are We?

Ugu District Municipality is a category C municipality which is a municipality that has municipal executive and legislative authority in an area that includes more than one municipality. It is 4 908 km² in extent and boasts a spectacular coastline of 112 kilometres, which forms its Eastern border. The region is bordered on the North by the eThekwini, in the West by Umgungundlovu and Harry Gwala District municipalities and on the Southern side shares its borders with the Eastern Cape Province. The municipality consists of 85 municipal wards, which culminate into four local municipalities, namely Ray Nkonyeni, Umuziwabantu, Umzumbe and Umdoni. Ugu District municipality has forty (40) traditional council areas within its jurisdictional area and these are:

Table 1.1.1.1 Key Demographic Information and Service levels

Municipality	Tribal Authority Area
Umdoni	Mbele; Qiko; Zembeni; Izimpethuzendlovu; Emandleni; Ukuthula; AmaNyuswa; Cele; and Malangeni.
Umzumbe	Bhekani; Cele P; Nhlangwini; Mabheleni; KwaBombo; Nyavini; Ndelu; Hlongwa; Thulini; Qwabe N; Cele K; Dungeni; Emadungeni; Qoloqolo; Qwabe P; and Hlubi.
Ray Nkonyeni	Qiniselani/Manyuswa; Mavundla/Nkumbini; Cele/Vukuzithathe; Xolo; Nzimakwe; Mavundla; Nsimbini; Lushaba; and Madlala.
Umuziwabantu	Kwa-Fodo; Thokozani/Madumisa; Jabulani/Beshwayo; Mbotho; Jali/Nhlangano; and Maci/Isibonda.

The statistics, shows that the Ray Nkonyeni Municipality is the district's economic hub. Ugu District Municipality's main economic sectors are Wholesale, retail trade and Tourism; Finance, insurance, real estate and business services; Community, social and personal services; Manufacturing; Construction; Transport, storage and communication; Agriculture, hunting, forestry and fisheries; and Electricity, gas and water supply; and Mining and quarrying. Commercial agriculture in the district produces one-fifth of all bananas consumed in South Africa, with numerous companies successfully exporting these and other products to some of the most exclusive packers in the United Kingdom. Ugu District is the proud owner of Blue Flag Status beaches, which has marked tourism as a major economic cultivator. The improvement of its infrastructure, education, health, and recreational facilities contributes immensely to its appeal. The nurturing of the local economy highly features tourism and agriculture and includes the district's very own Ugu Jazz Festival. It also includes other renowned annual activities, such as the Africa Bike Week, which has gained momentum worldwide.

1.1.1 Demographics Overview

According to the Stats SA Community Survey 2016, the total population of the Ugu District Municipality area of jurisdiction is 753 336 with a growth rate of 0.042. The district has a relatively young population with the children and youth making up 38.7% of total population. The dominant population group is Africans making up 90% of the total population. Indians; Coloureds and Whites makes up the other 10% of the population. Table 1.1.1.1: shows Key Demographic Information and Service Levels. The sex ratio as per 2011 census is 92 males per 100 females.

NATIONAL OUTCOMES

In January 2010, Cabinet adopted the 12 outcomes within which to frame public-service delivery priorities and targets. The following table is a summary of outcomes/priorities which were considered in the compilation of the 2019/2020 Annual Budget.

	NATIONAL OUTCOME/OUTPUT		ROLE OF LOCAL GOVERNMENT
1.	Improve the quality of basic education	-	Facilitate the eradication of municipal service backlogs in schools by extending appropriate bulk infrastructure and installing connections.
2.	Improve Health and life expectancy	1	Improve community health by providing clean water and sanitation. TB and HIV and AIDS awareness, prevention and treatment programmes.
3.	All people in South Africa protected and feel safe	-	Improving collaborations with the SAPS and ensuring rapid response to crime. Reduce level of crime in the municipality.
4.	Decent employment through inclusive economic growth	-	Ensure proper implementation of the EPWP. Design service level processes to be labour-intensive. Eliminate corruption in procurement processes to ensure value for money
5.	A skilled and capable workforce to support inclusive growth	-	Develop and extend intern and work experience programmes. Link procurement to skills development initiatives.
6.	An efficient, competitive and responsive economic infrastructure network	-	Ring-fence water and electricity functions so as to facilitate cost- reflecting pricing of these services. Maintain and expand water purification and waste water treatment works in line with growing demand.
7.	Vibrant, equitable and sustainable rural communities and food security	-	Facilitate the development of local markets for agricultural produce. Ensure effective spending of grants for funding extensions of access to basic services. Improve transport links with urban centres to ensure economic integration.
8.	Sustainable human settlements and improved quality of household life	-	Ensure capital budgets are appropriately prioritised to maintain existing services and extend services.
9.	A response and accountable, effective and efficient local government system	-	Ensure ward committees are representative and fully involved in community consultation processes around IDP, Budget and other strategic service delivery issues. Improve municipal financial administrative capacity by implementing competency norms and standards and acting against incompetence and corruption.
10.	Protection and enhancement of environmental assets and natural resources	-	Develop and implement water management plans to reduce water losses. Ensure effective maintenance and rehabilitation of infrastructure. Run water saving awareness campaigns Ensure development does not take place on wetlands.
	A better South Africa, a better and safer Africa and World A development-orientated public	-	Create an enabling environment for investment. Ensure basic infrastructure is in place and properly maintained. Continue to develop performance monitoring and management

 Review municipal expenditure to eliminate wastage.
 Ensure councils behave in ways to restore community trust in
local government.

STATE OF THE PROVINCE ADDRESS

The State of the Province Address delivered by the Premier of KwaZulu-Natal Mr. S. Zikalala was premised on the theme "We are ready to handover, towards even a better and faster growth and development of our Province and its people.". The Premier of KwaZulu-Natal Mr. S. Zikalala reiterated the Province's commitment to the realisation of the Country's as well as the Province's visions. The provincial vision is to be realised through continued implementation of the seven provincial strategic goals as outlined in the PGDS. The following eight (8) provincial priorities were highlighted in the 2020 SOPA:

	Build an inclusive Economy that creates decent jobs
	Transformation of rural areas
	Ensure decent living conditions and sustainable human settlement
	Improve and expand education and training
	Ensure quality health care for all
	Expand comprehensive social security
П	Fight crime and corruption

In drafting the 2020/2021 Budget, Council continues to support job creation by:

- 1. Ensuring that service delivery and capital projects are labour intensive;
- 2. Ensuring that service providers use labour intensive approaches;

Build a united nation and promote social cohesion

- 3. Supporting labour intensive LED projects;
- 4. Participating fully in the EPWP; and
- 5. Implementing intern programmes to provide young people with on-the-job training.

NATIONAL DEVELOPMENT PLAN: 2030

The National Development Plan aims to eliminate poverty and reduce inequality by 2030. South Africa has the potential and capacity to eliminate poverty and reduce inequality over the next two decades. This requires a new approach – one that moves from a passive citizenry receiving services from the State to one that systematically includes the socially and economically excluded, where people are active champions of their own development, and where government works effectively to develop people's capabilities to lead the lives they desire. The achievement of this vision is based on the following priorities:

- I. Creating jobs and livelihoods,
- II. Expanding infrastructure,

- III. Transitioning to a low-carbon economy,
- IV. Transforming urban and rural spaces,
- V. Improving education and training,
- VI. Providing quality health care,
- VII. Building a capable state,
- VIII. Fighting corruption and enhancing accountability,
 - IX. Transforming society and uniting the nation,

The municipality has compiled its budget and programmes towards contributing to these priorities.

OVERVIEW OF THE 2020/2021 ANNUAL BUDGET PROCESS

The 2020/2021 Annual Budget preparation process can be illustrated as below:-

August 2019 - Adoption of Framework Plan and Process Plan by Council and submission to COGTA, National and Provincial Treasury.

September 2019 - Assessment of IDP Implementation Plan

October 2019 - Conduct financial sustainability strategy with revenue enhancement focus.

November 2019 - Conduct Community needs Consultation to develop KPIs for 2019 PMS.

December 2019 - Submit 2019/2020 budget framework to all relevant persons (Budget framework to include salary, operational and capital budget related information).

February 2020 - Internal Consultative process with Departments by means of workshops and meetings to assess financial feasibility of proposed projects.

March 2020 Tabling of 2020/2021 Draft Budget (Ugu and the Entity) in Council for noting.

April - May 2020 - Stakeholder consultation process. Comments, additions, and proposals by stakeholders.

May 2020 - Special Joint Exco and Finance Portfolio Committee meeting to consider stakeholders input on the 2019/2020 draft budget.

May 20120 - Mayor tables the 2020/2021 Draft Budget for final adoption by Council.

ANNUAL REVIEW OF POLICIES

The administration annually reviews all budget related policies during the budget process and these are tabled to Council for Approval with the Annual Budget for that particular financial year.

For the 2020/2021 budget year, the following budget related policies were reviewed:-

- 1. Budget Policy
- 2. Virement Policy

- Funding and Reserves Policy
- 4. Water Services Policy (Tariff Policy)
- 5. Credit Control and Debt Collection Policy.
- 6. Basic Water Services Policy.
- 7. Indigent Support Policy.
- 8. Cash Management & Investment Policy.
- 9. Borrowing Policy
- 10. Asset Management & Disposal Policy
- 11. Supply Chain Management Policy

ALIGNMENT OF INTEGRATED DEVELOPMENT PLAN AND BUDGET

Over and above compliance with the MFMA and other legislation, the aim of the Budget is to enable the municipality to achieve its vision and mission through the implementation of all projects and programmes as contained in its Integrated Development Plan. The Integrated Development Plan (IDP) formed basis of the prioritisation of resources as it contains programmes informed by the community needs. All resources have been allocated to priority projects as identified in the IDP.

The alignment of the Integrated Development Plan to the Budget is reflected in the following Schedules:

- · Reconciliation of IDP Strategic objectives and Budget (Revenue) Table SA4
- · Reconciliation of IDP Strategic objectives and Budget (Operating Expenditure) Table SA5
- · Reconciliation of IDP Strategic objectives and Budget (Capital Expenditure) Table SA6

BUDGET ASSUMPTIONS

COST REFLECTIVE TARIFFS

The National Treasury has consistently advised Municipalities over an extended period, through its annual MFMA Budget Circulars, to introduce tariffs that are cost reflective and doing so consider the following:

- The transition to cost-reflective tariff structures should be preceded by the full interrogation of the input costs. Municipalities must ensure that input costs (both direct and indirect) are relevant to the service provided and are as efficient as possible;
- Municipalities must strive to ensure that a balance between cost recovery and affordability is maintained. Setting tariffs that exceed household affordability thresholds will have an effect on the ability of households to pay for municipal services and consequently impact negatively on the projected revenue collections of the municipality; and
- Municipalities are also advised to factor in economic considerations such as water scarcity to
 ensure that the economic value of water is reflected in the tariff structure. Municipalities must
 take note of changing rainfall patterns, climate change and water scarcity in South Africa.

OPERATING REVENUE

For the 2020/21 Budget 8% increase is proposed following the 18% increase that was adopted in 2019/20 and that we were coming from 5.3% in 2018/19, for water and sanitation charges.

- Service charges for water
- 2. Service charges for sanitation
- 3. Grants and subsidies
- 4. Other income

- 5. Free and Subsidized Services
- 6. Interest on overdue accounts

1. SERVICE CHARGES FOR WATER AND SANITATION:

The cost of water and sanitation is determined by three factors:

- 1. The cost of bulk water
- 2. The capital cost of infrastructure, and
- 3. The cost of operating and maintaining the infrastructure

The revenues are further affected by the following:

- 1. % Increase in electricity costs.
- 2. % Increase in the cost of bulk water.
- 3. Realistically anticipated consumption volumes.
- 4. local economic conditions and affordability level; and
- 5. the need to ensure sustainability in the provision of services.
- 6. No increase has been affected on the basic charge for sanitation.
- 7. The collection rate is based on the average collection trend for the past four years (i.e. 87.0%), however this rate has been applied to the Water revenue only as all collections are paid against the Sanitation debt first, then the remaining cash is paid against the Water debt.
- 8. The municipality is also anticipating a 100% collection on the grant allocations and other revenues that are collectible in advance.

2. GRANTS AND SUBSIDIES

The municipality will receive operating grants totalling R510,3 million and capital grants totalling R289.3 million from the National and Provincial Equitable distribution of revenues in the 2020/2021 financial year.

3. FREE AND SUBSIDISED SERVICES

Distribution of water is done via more than 48 000 private household connections and over 4 500 communal stand taps which mainly service the inland rural areas. All the households that have access to water receive 6kl a month as free basic water which has necessitated an allocation of R50,639,862 to be made in the 2020/21 Annual Budget to be funded from Equitable Share.

A further R82,806,762 allocation has been made from Equitable Share for water provided through standpipes. A total of 460 beneficiaries were recorded on the Indigent Register as at 29 February 2020 this was a downward move from 5099 recorded as at 31 December 2019 (as per indigent policy all beneficiaries are required to re-apply on an annual basis). The municipality has set aside R60,179,221 from Equitable Share for Indigent Support. Indigent households will receive 6kl free every month for the 2012/2021 financial year.

4. INTEREST INCOME

The municipality has not been charging interest on arrear debtor balances is a violation of Section 64 of the Municipal Finance Management Act 56 of 2003. A Credit Control and Debt Collection Bylaw has since been developed and the Policy reviewed to ensure that we adhere to said legislation. The Bylaw has gone through the public participation process, which was finalised in February 2019 and was published in the Provincial Gazette in August 2019.

It must be noted that this is the first time the municipality will be charging interest on arrear debtors accounts, which requires configuration of the billing system to put it to effect. The configuration of the system took some time and thus the municipality will start raising interest on area debtors accounts from 01 April 2020.

Challenges with Meter Readings

The meter reading service is outsourced and not all meters are read in each billing cycle. The service provider has failed to read 100% of meters in the urban area, with readings ranging between 75% and 81%. The service provider has managed to read an average of 11% of rural meters. The common practice for the unread meters is that those are estimated, and the billing system is configured as such. The challenge with estimated readings comes when customers fail to report leaks inside their properties, which also go undetected by the municipality due to prolonged non-reading of those meters. The moment such meters are read, consumption increases as the system would have been under-estimating it and resulting in high bills that customers end up disputing.

There are also shortcomings in our internal processes such as meters changed on the ground but not updated on the system resulting in incorrect readings.

Metered Households vs Households with Access to Water

There are 148 617 households with access to water in the district as per Water Services report. The district services an area comprising about 80% rural and 20% urban. 30% (44 866) of the total households is metered, which is made up of 13 755 rural and 31 111 urban customers.

The remaining 70% (103 751) relates to unmetered households. 97 002 of the unmetered households are all rural customers that receive water through standpipes and water tankers. There are 6 749 unmetered urban customers that are being billed a basic charge on their vacant stands, which are not necessarily consuming water and sanitation services.

OPERATING EXPENDITURE

SALARIES AND WAGES

The salaries and wages budget have been prepared using the existing Salary Agreement which stipulates a percentage increase equal to the average CPI for the period 01 February 2019 to 31 January 2020 plus 1% for the budget year 2020/21 (i.e. 5.0% plus 1.5%). The council had adopted a revised organogram in December 2014 and there are new positions that have been included in the new organisational structure, hence the total salaries budget, have been increased beyond the percentage that is specified in the Salary Agreement.

COUNCILLORS ALLOWANCES

A maximum 6.5% increase for the councillor's allowance has been considered for approval by the MEC based on a qualified audit report that was received by the municipality in the 2018/2019 financial year. The gazette on the Public Office Bearers Act was not available at the stage of preparing this draft budget. The budget for the councillor's allowance includes other costs like the travelling claims (km), which are not gazetted on the Remuneration of Public Office Bearers Act.

DEPRECIATION AND DEBT IMPAIRMENT

The Depreciation and Amortisation has been calculated based on a straight-line method and the useful life of the assets as per the approved Asset Management Policy. Depreciation and impairment amounts to R163,6 million and R6,1 million respectively for the 2020/21 budget year. Debtors impairment has been projected at R40,3 million. These are non-cash item but not cash backed and contributes to budget deficit.

REPAIRS AND MAINTENANCE

The municipality is unable to provide adequate funds for Repairs and Maintenance in the budget; hence the current allocation is below the norm (i.e. 8% of the carrying amount of PPE). The classification of the Chart of Accounts in line with the mSCOA will address the challenges with the current classification of the Salaries and the Contacted Services relating to the maintenance of assets which is currently being accounted for under Salaries and Allowances and, or Contracted Services.

Due to budget processes as instituted within the municipality the norm has not be followed since 2014 in the establishment of the asset management unit. This has been largely linked to what was said to be prioritisation of new projects to deal with the increasing demand for water in the rural areas and some sub-urban areas as the infrastructure at that time was not able to meet the growing population.

The National Treasury norm recommends that the municipality must budget 8% of the PPE carrying value to repairs and maintenance, which for Ugu DM translates to R383,121,647.28, whereas the budgeted internally generated revenue service charges is R350,000,000.00. This thus makes sticking to the norm impractical.

BULK WATER PURCHASES

The water supplied by the District is derived from dams, rivers, ground water and bulk purchases from eThekwini / Umgeni Water. The northern coastal strip (i.e. Craigburn, Umzinto and Umtwalume) is serviced by potable water purchased in bulk from Umgeni Water. The cost per kilolitre will increased by 9.6% in 2019/20 which is the latest tariffs we have and an allocation of R145,8 million for the 2020/2021 financial year.

ELECTRICITY EXPENSE

While the court case between NERSA and Eskom is still pending, municipalities should use the tariff increases previously (March 2019) approved by the regulator of 8.1 per cent for 2020/21, 5.2 per cent 2021/22 and 8.9 per cent for 2022/23.

OTHER OPERATING EXPENDITURE

The operating expenditure budget has been prepared in line with the municipality's turnaround strategies as implemented by management, which contains strategies of curbing administrative expenditure to improve the cash flow position of the municipality.

CAPITAL EXPENDITURE

In the absence of the IDP this portion of the budget is based on last year list of projects to estimate projects.

Majority of the infrastructure is in the rural areas which is not generating any income.

- 1. The Revenue collection projections were not realistic and therefore overstated
- 2. The approved water tariffs were not cost reflective historically. This was corrected in the 2018/19 financial year, this then led to reduced consumption by the customers and negatively affected our revenue generation.
- 3. The budget had been unfunded since 2015/16 owing to continued service delivery demands without a complementary increase in tariffs (revenue source).

4. The tariffs have been increasing at no more than 6% for the past 5 financial years notwithstanding the increase in the production of water as well as the running costs which exceeded the tariff increments. "

In 2020/21 budget year municipalities are advised to follow a conservative approach when projecting their revenue and to eliminate any waste and unnecessary expenditure.

And should ensure that they adopt realistic and funded 2020/21 MTREF budgets, collect the debts owed to them and pay their creditors within 30 days of receipt of invoice.

UGU SOUTH COAST TOURISM ENTITY

Ugu controls 100% of the Ugu South Coast Tourism Entity. This Board is entrusted with delivering innovative and cost-effective strategies that will ensure a growing, quality tourism economy that creates sustainable jobs and alleviates poverty. Its core functions are Tourism Development and Tourism Marketing, for which Ugu District Municipality has allocated R6, 096, 425 and R7, 245, 531 respectively. Other Local Municipalities also make grant contributions to the Entity.

SOUTH COAST DEVELOPMENT AGENCY

Ugu controls 100% of the South Coast Development Agency. This entity is an economic development implementing agency of the municipality. It's core functions is to engage in economic development projects that grow the economic development footprint of the municipality. To enable the entity to perform its function, the municipality has allocated an amount of R5, 381, 408 for the financial year 2019/2020. The other Local Municipalities also make grant contributions to the Agency.

SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

The Service Delivery and Budget Implementation plan is currently being reviewed to include changes made to the Draft Budget. After the consultation process, the Draft will be submitted to the Mayor, within 14 days from the date of the approval of the council.

DRINKING WATER QUALITY AND WASTE WATER MANAGEMENT

Water Service Authority:

Ugu District Municipality

Water Service Provider:

Ugu District Municipality (with bulk purchases from Umgeni Water and eThekwini Metro in the northern part of the district. Bulk water is also

sold to Sisonke District Municipality)

Blue Drop Ratings

The municipality water supply systems were awarded a 93.5% score in May 2009, which means that it has very good Drinking Water Quality Management (DWQM) and effectively manages the quality of drinking water in its supply zone. The following are the challenges that led to the non - award of the Blue Drop Classification

Criteria	Requirement	Management Response
Process Controlling	Registration of process controllers (Operators)	Applications for all operators were submitted to DWAF in Feb 2009 and DWA is still working on them. It is anticipated that these will be available by the next review
Credibility of Sample Analysis	Proof that analyses results are used to improve process controlling	The analysis failed to capture that the municipality has an Incident Management Protocol and Register that are used to address and record all deviations and improvements. In addition, the monthly submissions to DWAF have functionality of reporting on what has been done to attend to deviations, which has always been done consistently. It is hoped this will be addressed by the next review.

As part of the Drinking Water Quality Management initiatives, the municipality developed and adopted a **Water Safety Plan** in July 2009, which has guided the management of water services in general. As part of the Safety Plan the following are some of the activities that are already in progress or due for implementation within the next three years;

- Online drinking water monitoring for all water treatment plants and the associated reporting at the operation, tactical and strategic levels
- Establishment of a Control Centre that will drive operations and assist in moving from reactive maintenance to proactive maintenance and to be the key business reporting centre
- Establishment of ISO based quality management systems in a phased manner for water and sanitation services
- Establishing an Asset Management Plan that will drive all maintenance work within the municipality
- Contracting professional and independent persons to undertake process audits for all treatment plants
- Establishing a treatment/process section within the municipality to ensure that the right level of attention and staffing is in place for all treatment plants
- Establishment of a scarce skills allowance to be able to attract and retain suitably qualified personnel

Green Drop Rating

Applications have also been made for all treatment systems within the district and are awaiting the classification results.

Challenges in the management of drinking water and sewerage;

The following are some of the challenges faced in the provision of water and sanitation services in the district and the proposed solution for each challenge.

Issue	Challenge	Recommendation
Pipeline Replacement Program	Majority of pipelines in the urban areas are old AC pipes. Current budget provisions of R10m/yr are inadequate	Allocated funding for a massive AC renewal program and also apply for grant funding
Non Revenue Water Programme	Budget provisions limit the current program to part of the network at a time which is inadequate.	Seek grant funding to fast track the implementation of the NRW Programmes
Supply and Treatment Constraints	A number of WTW and WWTW are functioning at capacity and certain areas do not have the required 48hr storage	Update Water and Sanitation Master Plans; Upgrade of WTW and WWTW and implementation of Phase 2 of the South Coast Bulk Pipeline
Supply to higher lying areas and consumers along bulk mains	Majority of higher lying areas are connected on bulk mains which do not offer the necessary buffer for maintenance purposes and adequate pressures during high demand periods	Planning and design of supply alternatives to higher lying areas such as elevated towers and network modifications
Telemetry	The telemetry system outdated	SCADA System Review and Master Planning in progress
Rural WTW monitoring	There are currently no staff to man remote rural plants	Online Drinking Water Quality Monitoring and Automation Project in progress
Skills Development	The majority of plumbing staff is not suitable qualified while others are illiterate. This has a great effect on operations.	Conclude the RPL process and establish routine training program for all staff
Utility Mapping	The majority of the pipelines and other drawings for the municipality are old and outdated and in certain places are none existent.	Develop a GIS Strategy to influence utility mapping as a whole and then implement map update and utility books for the different operational areas
Dedicated maintenance crews	With current staffing levels most of the work done is reactive in nature with limited proactive maintenance	Implementation of Shift System and build maintenance crews from the day teams

Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purposes

Total Revenue by functional classification must reconcile to Total Operating Revenue shown in Budgeted Financial Performance (revenue and expenditure)

Total Expenditure by Functional Classification must reconcile to Total Operating Expenditure shown in Budgeted Financial Performance (revenue and expenditure)

All amounts must be classified under a functional classification. The GFS function 'Other' is only for Abbatoirs, Air Transport, Forestry, Licensing and Regulation, Markets and Tourism - and if used must be supported to otnotes. Nothing else may be placed under 'Other'. Assign associate share to relevant classification.

1. Note that this section of Table SA 30 is deliberately not introd to Table A4 because furing differences between the invoicing of clients and receiving the cust means that the cashifow will differ from budgeted expense, and similarly not budgeted expenditure, However for the MTREF it is now directly inhead to A7.

7.3 NUMBER OF BASIC CHARGES

Number of Basic charges shall be based on the actual number of units for each property. The number of basic charges shall be calculated as per the Guidelines for Engineering Services and based on the number of units, unit size and consumption per unit.

8. INDUSTRIAL EFFLUENT CHARGES

The charges payable by the owner or occupier, as the case may be, of the manufacturing premises for the use of the Council's sewers in respect of the discharge and conveyance therein of trade effluent from the manufacturing premises, including the use of the Council's sewage purification works for purification of the trade effluent, shall be determined in accordance with the provisions of this by-law. Accounts will be rendered as soon as possible after each period of six months ending on 31st December, or 30th June of each year and shall apply to such periods. Where during any such six monthly period there has been a change of ownership or occupancy necessitating an apportionment of the amount due to the Council, the Council will apportion the amount between the parties concerned in a manner proportionate to the quantity of trade effluent discharged during the relevant respective periods of ownership or occupancy. Nothing herein shall be construed as preventing the Council from submitting accounts on a monthly basis should such practice be considered more expedient by the Council.

The General Manager: Water Services may base the trade effluent charge as described in paragraph (p) section (a), on the highest COD of one, or more samples collected from the trade effluent sampling point.

The charge to be levied by the General Manager: Water Services in respect to trade effluent discharged into its sewers from manufacturing premises shall be assessed in accordance with the following formula: -

 $R = A + ((COD/1000) \times B)$

WHERE

- R is the rate in cents per kilolitre due to the Council.
- A is the basic carriage tariff expressed in cents per kilolitre, determined annually in advance by the Council. The value of A is R 8.12 (8%)
- B is the basic treatment tariff expressed in cents per kilogram of COD, determined annually in advance by the Council. The value of B is R0.77 (8%)
- COD is the chemical oxygen demand value expressed in milligram of COD per litre of effluent recorded in snap samples of effluent collected as and when deemed fit by the General Manager: Water Services.

The charges payable by the owner or occupier will also include any other charges as may be applicable.

- A copy of the methods of chemical analysis and testing procedures used to determine the COD for the purpose of calculating the charge equation described above shall be kept available by the General Manager: Water Services for inspection by the owner or occupier of any premises concerned. The method of chemical analysis will in all respects follow the STANDARD METHODS FOR WATER ANALYSES published by the SOUTH AFRICAN BUREAU OF STANDARDS being SABS METHOD 1048 – CHEMICAL OXYGEN DEMAND OF WATER.
- In the absence of any direct measurement, the quality of trade effluent discharged into the Council's sewers from any manufacturing premises during any period shall be estimated and determined by the General Manager: Water Services by reference to the quantity of water consumed on such premises during such period. The quantity of water consumed on such premises shall be determined by reference to the Council's water meters in the case of water obtained from the Council and by meter or by calculation in the case of water obtained from any other source, including water emerging from material processed on the premises.

2. PRINCIPLES

- 2.1 Section 215 (1) of the Constitution of the Republic of South Africa states that National, provincial and municipal budgets and budgetary processes must promote transparency, accountability and the effective financial management of the economy, debt and the public sector. It also states in S215 (3), that Budgets in each sphere of government must contain;
 - a. Estimates of revenue and expenditure, differentiating between capital and current expenditure;
 - Proposals for financing any anticipated deficit for the period to which they apply;
 and
 - c. An indication of intentions regarding borrowing and other forms of public liability that will increase public debt during the ensuing year.
- 2.2 Section 26(h) of the Municipal Systems Act (Act 32 of 2000) requires a municipality's Integrated Development Plan to reflect a financial plan, which must include a budget projection for at least the next three years (Medium Term Expenditure Framework);
- 2.3 Section 21 of the Municipal Finance Management Act (Act 56 of 2003) prescribes the function of the Mayor who must coordinate the processes for preparing the annual budget and for the reviewing of the municipality's Integrated Development Plan and budget related policies and to ensure that any revisions are mutually consistent and credible;
- 2.4 Section 16 of the Municipal Finance Management Act, requires the municipal council to approve an annual budget for the municipality before the start of the financial year;
- 2.5 The Minister with the concurrence of the Minister for Provincial and Local Government, has in terms of S168 of the Municipal Finance Management Act issued the Municipal Budget and Reporting Regulations which aim to secure sound and sustainable management of the budgeting and the reporting practices of the municipalities by establishing uniform norms and standards and other requirements for ensuring transparency, accountability and appropriate lines of responsibility in the budgeting and reporting processes; Now therefore, the Council of Ugu District Municipality adopts the Budget Policy as set out in this document.

3. OBJECTIVES OF THE POLICY

To set a broad framework within which Budget related decisions of the Municipality will be taken and implemented to ensure efficient and transparent financial planning that will promote sound and sustainable financial management, essential for the achievement of the Municipality's developmental priorities as contained in its Integrated Development Plan.

4. SCOPE AND INTENDED AUDIENCE

- This Policy will serve as a guideline for the effective management of the Municipal budgetary processes, in order to attain the strategic objectives of the Municipality within the ambits of the applicable legislation, and shall apply to all departments within the Municipality.
- 4.2 Council has considered the guidelines distributed by National Treasury to local government which detail the processes and formats to be followed when preparing the budget policy.
- 4.3 The Municipality shall comply with the provisions of this Policy in the compilation of each of its budgets.

5. REGULATORY FRAMEWORK

In the process of preparing the Municipal budget, The Mayor, political office bearers (Councillors), Accounting Officer, Chief Financial Officer and other officials shall comply with all relevant legal requirements, including:-

- a) The provisions of Chapter 4 of the Municipal Finance Management Act, 2003, ('the MFMA"), as well as Sections 42, 43, 53, 54, 55, 68, 69, 70, 71, 72, 75, 80, 81, and 83 thereof; and
- b) The Municipal Budget and Reporting Regulations published in terms of Section 168 of the MFMA.
- c) All relevant budget related Circulars and notices issued by the National Treasury.

6. ROLES AND RESPONSIBILITIES

- g). Expenses may only be incurred in terms of the approved annual budget (or adjustments budget) and within the limits of the amounts appropriated for each vote in the approved budget.

9 FUNDING OF EXPENDITURE

An Annual budget must be funded only from:

- a) Realistically anticipated revenues to be collected.
- b) Cash-backed accumulated surpluses from previous years not committed for other purposes;

- c) Borrowed funds, but only for revenue-generating capital projects; and
- d) Grants and subsidies as per DORA.

10 THE CAPITAL BUDGET

- 10.1 The Budget shall be prepared in the prescribed budget format of National Treasury.
- 10.2 The annual capital budget shall be prepared from a zero base, except in so far as capital projects represent a contractual commitment to the Municipality extending over more than one financial year.
- 10.3 The annual capital budget shall only be approved by Council if it is properly balanced (i.e. if the sources of finance have been secured to fund the budget and are equal to the proposed capital expenditure).
- 10.4 Before approving the capital budget, the Council shall consider the impact on the present and future operating budgets in relation to Finance Charges on external loans, Depreciation on fixed assets, Maintenance costs of fixed assets, and any other ordinary operational expenses associated with any item in that capital budget.
- 10.5 The Council shall also consider any impact of operating expenses net of any revenues to be generated from the project i.e. on future service tariffs.
- 10.6 Expenditure of a project shall be included in the Capital Budget if it meets the asset definition in terms of Council's approved Asset Management Policy

11 OPERATING REVENUE

- 11.1 The Operating revenue must include:
 - a) Estimates for all municipal revenue sources and;
 - b) All gazetted grants and subsidies, donations and subsidies in kind or emergency relief funding.
- 11.2 The allocation of interest on investments shall be budgeted for in terms of the cash, banking and investment policy.
- 11.3 In preparing the revenue budget, the Municipality shall strive to maintain the aggregate revenues from service charges at not less than 90% of the aggregate revenues net of operating grants.
- 11.4 The proposed increases in tariffs should be affordable, i.e. in line with CPIX, and should take into account the need to address infrastructure backlogs.
- 11.5 Tariff increases must respond to the population growth rate and the Division of Revenue Act.

- 11.6 The water and sanitation charges shall be calculated and levied as per the reviewed Water and Sanitation Tariffs Policy for that MTREF.
- 11.7 All tariffs shall be published in a local newspaper, and placed on the Municipal website and at the entrance of Ugu offices at least 30 days before the start of the financial year.
- 11.8 All tariffs must be gazetted in the Government Gazette before the 1st July each year.

12 OPERATING EXPENDITURE

- 12.1 The Municipality shall budget in each annual and adjustments budget for the contribution to:
 - a) provision for accrued leave entitlements.
 - b) entitlement of officials as at 30 June of each financial year;
 - c) provision for impairment of debtors in accordance with its Rates and Tariffs Policies;
 - d) provision for the obsolescence and deterioration of stock in accordance with its Supply Chain Management Policy;
 - e) depreciation and finance charges shall be charged to or apportioned only between the departments or votes to which the projects relate;
- 12.2 The operating budget shall duly reflect the impact of the capital component on:
 - a) Depreciation and impairment charges;
 - b) Repairs and maintenance expenses;
 - c) Interest payable on external loans, and
 - d) Any other operating expenses associated with fixed assets.
 - e) The operating budget must be in the prescribed National Treasury Format.

12.3 SALARIES AND ALLOWANCES

The budget for salaries and allowances shall be separately prepared and shall not exceed the parameter (percentage) of the aggregate operating budget component of the annual or adjustments budget, the parameters as may be contained in the budget circular issued by National Treasury from time to time. If the salary budget, exceed the parameter (percentage) of the aggregate operating budget as issued by National Treasury Council will be advised and provided with reasons and remedial action. The remuneration of Councillors and other political office bearers shall be excluded from this limit.

12.4 PROVISION FOR MAINTENANCE

The Municipality shall adequately provide in each annual and adjustments budget, for the maintenance of its fixed assets in accordance with its Fixed Asset Management and Accounting Policy as well as the routine maintenance plans. A minimum of 8% of the carrying amount of the fixed assets shall be provided for the expenditure on Repairs and Maintenance in the annual budget of the Municipality in accordance with the National Treasury norms.

12.5 FINANCE CHARGES, DEPRECIATION AND IMPAIRMENT

- 12.5.1 The Finance Charges payable by the Municipality shall be apportioned between departments or votes on the basis of the proportion at the last balance sheet date of the outstanding loan balances belonging to such department or vote to the aggregate outstanding loan balances. However, should Council decide to raise loans only for financing of fixed assets in a specified service or vote, finance charges shall be charged to or apportioned only between the departments or votes relating to such service.
- 12.5.2 The depreciation expenses shall be apportioned to each department based on the cost of assets allocated to that department. The depreciation method used shall be in terms of the Fixed Assets Management and Accounting Policies.

13 CONSULTATION ON TABLED DRAFT BUDGETS

The Municipality shall, after the annual draft budget is tabled in Council, consider the views of the local community, the National and Provincial Treasuries, organs of state and local municipalities, as required by Section 23 of the MFMA, and shall comply with all other requirements of that section. For the purpose of consultation, the draft budget will be made available to the community, through the community libraries, the municipal offices and the municipal website soon after tabling in Council.

14 APPROVAL OF THE ANNUAL BUDGET

The Council shall approve the budget before the start of the financial year, in accordance the provisions of Section 24 of the MFMA, failing which, the Municipality shall be subject to the provisions of Section 25 of the MFMA.

15 PUBLICATION OF THE BUDGETS

In accordance with Section 22 of the MFMA, the Municipal Manager shall ensure that immediately after the annual budget is tabled in the Council:

- a) The budget is made public in accordance with the provisions of Section 17 (3) of the Local Government Municipal Systems Act.
- The budget is submitted to the National Treasury and Provincial Treasury in printed and electronic formats;
- c) The budget is submitted to any prescribed organs of state and to other municipalities affected by it.

16 MONTHLY BUDGET REPORTS

The Chief Financial Officer shall compile monthly budget reports, with recommendations, comparing actual results with budgeted projections, and the heads of departments shall furnish the Chief Financial Officer with all explanations required for deviations from the budget.

The Chief Financial Officer shall submit these monthly reports to the Mayor, Finance Committee and Executive Committee, and all other prescribed parties, in accordance with the prescriptions of the Municipal Finance Management Act.

17 RELATED POLICIES

This Policy must be read in conjunction with the following budget-related policies of the Municipality:-

- 17.1.1 Indigent Support Policy
- 17.1.2 Asset Management Policy
- 17.1.3 Water Services Policy (incorporating the Tariff Policy)
- 17.1.4 Cash, Banking and Investments Policy
- 17.1.5 Supply Chain Management Policy
- 17.1.6 Credit Control and Debt Collection Policy
- 17.1.7 Funding and Reserves Policy
- 17.1.8 Virement Policy
- 17.1.9 Basic Services Policy

18 REVIEW OF THE POLICY

This Policy will be reviewed annually by the Budget Steering Committee prior to the commencement of the budget process to ensure compliance with any changes in

legislation or any 'best practice' guidelines and MFMA Circulars as may be issued by National Treasury from time to time.

19 COMPLIANCE AND ENFORCEMENT

- a. Violation of or non-compliance with this Policy may give a just cause of disciplinary steps to be taken.
- b. It will be the responsibility of Accounting Officer to enforce compliance with this Policy.

20 EFFECTIVE DATE

This Policy shall come to effect upon approval by Council.

21	POI	ICV	ADO	PTION
Z I	FUL		$\Delta U V$	

This Policy has been considered and approved by the COUNCIL OF UGU DISTRICT
MUNICIPALITY as follows:
Resolution No:
Approval Date:

ANNEXURE: LEGAL REQUIREMENTS

MUNICIPAL FINANCE MANAGEMENT ACT

Section 15 Appropriation of funds for expenditure

Expenses may only be incurred in terms of the approved annual budget (or adjustments budget) and within the limits of the amounts appropriated for each budget vote.

Section 16 Annual budgets

The Council of the municipality must approve the annual budget before the start of the financial year to which it relates.

The Mayor must table the annual budget at least ninety days before the start of such financial year.

The capital budget may extend over three years, provided that it is separated into annual appropriations for that period.

Section 17 Contents of annual budgets and supporting documents

The budget must be in the prescribed format, and must be divided into a capital and an operating budget.

The budget must reflect the realistically expected revenues by major source for the budget year concerned.

The expenses reflected in the budget must be divided into votes.

The budget must also contain the foregoing information for the two financial years following the financial year to which the budget relates, as well as the actual revenues and expenses for the year before the current year, and the estimated revenues and expenses for the current year. The budget must be accompanied by all the following documents:

- draft resolutions approving the budget and levying property rates, other taxes and tariffs
 for the financial year concerned;
- draft resolutions (where applicable) amending the IDP and the budget-related policies;

- measurable performance objectives for each budget vote, taking into account the municipality's IDP;
- the projected cash flows for the financial year by revenue sources and expenditure votes;
- any proposed amendments to the IDP;
- any proposed amendments to the budget-related policies;
- the cost to the municipality of the salaries, allowances and other benefits of its political office bearers and other councillors, the municipal manager, the chief financial officer, and other senior managers;
- particulars of any proposed allocations or grants to other municipalities, municipal
 entities, external mechanisms assisting the municipality in service delivery, other
 organs of state, and organisations such as NGOs, welfare institutions and so on;
- particulars of the municipality's investments; and
- various information in regard to municipal entities under the shared or sole control of the municipality.

Section 18 Funding of expenditures

The budget may be financed only from:

- realistically expected revenues, based on current and previous collection levels;
- cash-backed funds available from previous surpluses where such funds are not required for other purposes; and
- borrowed funds in respect of the capital budget only.

Section 19 Capital projects

A municipality may spend money on a capital project only if the money for the project (excluding the cost of any required feasibility studies) has been appropriated in the capital budget.

The total cost of the project must also be approved by the Council.

The envisaged sources of funding for the capital budget must be properly considered, and the Council must be satisfied that this funding is available and has not been committed for other purposes.

Before approving a capital project, the Council must consider the projected cost of the project over all the ensuing financial years until the project becomes operational, as well as the future operational costs and any revenues which may arise in respect of such project, including the likely future impact on property rates and service tariffs.

Section 20 Matters to be prescribed

The Minister of Finance must prescribe the form of the annual budget, and may further prescribe a variety of other matters, including the inflation projections which the municipality must use in compiling its budget.

The Minister may also prescribe uniform norms and standards in regard to the setting of tariffs where a municipality entity or other external mechanisms is used to perform a municipal service; and may also take appropriate steps to ensure that a municipality does not, in exceeding its fiscal powers, materially and unreasonably prejudice national economic policies (particularly on inflation, administered pricing and equity), economic activities across municipal boundaries, and the national mobility of goods, services, capital or labour.

Section 21 Budget preparation process

The Mayor of the municipality must:

- Co-ordinate the processes for preparing the annual budget, and for reviewing the municipality's IDP and budget-related policies to ensure that the budget, the IDP, and the policies are mutually consistent and credible.
- At least ten months before the start of the ensuing financial year, table in the Council the time schedule with key deadlines for the preparation, tabling and approval of the following year's annual budget, the review of the IDP and budget-related policies, and the consultative processes required in the approval of the budget.

- When preparing the annual budget, take into account the municipality's IDP, the national budget, provincial budget, the National Government's fiscal and macroeconomic policies, and the annual Division of Revenue Act.
- Take all reasonable steps to ensure that the municipality revises its IDP in line with realistic revenue and expenditure projections for future years.
- Consult the district municipality (if it is a local municipality) and all other local municipalities in the district, and all other local municipalities in the district if it is a district municipality.
- Consult the National Treasury when requested, the Provincial Treasury, and such other provincial and national organs of state as may be prescribed.
- Provide, on request, any budget-related information to the National Treasury, other national and provincial organs of state, and any other municipality affected by the budget.

Section 22 Publication of annual budgets

Immediately after the annual budget has been tabled, the Municipal Manager must make this budget and other budget-related documentation public, and must invite the local community to submit representations in regard to such budget.

The Accounting Officer must also immediately submit the tabled budget in both printed and electronic formats to the National Treasury, the Provincial Treasury, and in either format to prescribed national and provincial organs of state and other municipalities affected by the budget.

Section 23 Consultations on tabled budgets

After the budget has been tabled, the Council of the municipality must consider the views of the local community, the National Treasury, the Provincial Treasury, and any provincial or national organs of state or municipalities which have made submissions on the budget.

After considering these views, the Council must give the Mayor the opportunity to respond to the submissions received, and – if necessary – revise the budget and table the relevant amendments for consideration by the Council.

The National Treasury may issue guidelines on the manner in which the Council must process the annual budget, including guidelines on the formation of a committee of the Council to consider the budget and hold public hearings. Such guidelines shall be binding only if they are adopted by the Council.

Section 24 Approval of annual budgets

The Council must consider approval of the budget at least thirty days before the start of the financial year to which such budget relates.

The budget must be approved before the start of such financial year, and the resolutions and performance objectives referred to in Section 17 must simultaneously be adopted.

Section 25 Failure to approve budget before start of budget year

This Section sets out the process which must be followed if the budget is not approved in the normal course of events. Briefly the Council must reconsider and vote on the budget, or an amended version of the budget, every seven days until a budget is approved. The Mayor must immediately inform the MEC for Local Government if the budget is not adopted by the start of the budget year, and may request a provincial intervention.

Section 26 Consequences of failure to approve budget before start of budget year

The provincial executive must intervene in any municipality which has not approved its annual budget by the start of the relevant financial year. Such intervention must entail the taking of any appropriate steps to ensure a budget is approved, including dissolving the Council and appointing an administrator until a new Council can be elected, and approving a temporary budget until such new Council can adopt a permanent budget for the municipality. The Section also imposes restrictions on what may be spent in terms of such temporary budget.

Section 27 Non-compliance with provisions of this chapter

This Section sets out the duties of the Mayor to report any impending non-compliance and the general consequences of non-compliance with the requirements of the various foregoing prescriptions.

Section 28 Municipal adjustments budgets

A municipality may revise its annual budget by means of an adjustments budget.

However, a municipality must promptly adjust its budgeted revenues and expenses if a material under-collection of revenues arises or is apparent.

A municipality may appropriate additional revenues which have become available but only to revise or accelerate spending programmes already budgeted for.

A municipality may in such adjustments budget, and within the prescribed framework, authorise unforeseen and unavoidable expenses on the recommendation of the Mayor.

A municipality may authorise the utilisation of projected savings on any vote towards spending under another vote.

Municipalities may also authorise the spending of funds unspent at the end of the previous financial year, where such under-spending could not reasonably have been foreseen at the time the annual budget was approved by the Council.

Only the Mayor of the municipality may table an adjustments budget. Such budget may be tabled whenever necessary, but limitations on the timing and frequency of such tabling may be prescribed.

An adjustments budget must contain all of the following:

- an explanation of how the adjustments affect the approved annual budget;
- appropriate motivations for material adjustments; and
- an explanation of the impact of any increased spending on the current and future annual budgets.

Municipal taxes and tariffs may not be increased during a financial year except if required in terms of a financial recovery plan.

Section 29 Unforeseen and unavoidable expenditure

In regard to unforeseen and unavoidable expenses, the following apply:

- the Mayor may authorise such expenses in an emergency or other exceptional circumstances;
- the municipality may not exceed a prescribed percentage of the approved annual budget in respect of such unforeseen and unavoidable expenses;
- these expenses must be reported by the Mayor to the next Council meeting;
- the expenses must be appropriated in an adjustments budget; and
- the adjustments budget must be passed within sixty days after the expenses were incurred.

Section 30 Unspent funds

The appropriation of funds in an annual or adjustments budget will lapse to the extent that they are unspent by the end of the relevant budget year, but except for the expenses referred to above in Section 16.

Section 31 Shifting of funds between multi-year appropriations

If the funds for a capital project have been appropriated for more than one financial year (see Section 16) these expenses may exceed the appropriation for any one financial year, provided:

- the increase is not more than 20% of that financial year's allocation;
- the increase is funded in the next financial year's appropriations;
- the Municipal Manager certifies that actual revenues are expected to exceed budgeted revenues, and that enough funds will be available to finance such increased appropriation without incurring further borrowing beyond the annual budget limit;
- the Mayor gives prior written approval for such increased appropriation; and
- all the above documentation is provided to the Auditor-General.

Section 32 Unauthorised, irregular or fruitless and wasteful expenditure

Unauthorised expenses may be authorised in an adjustments budget.

Section 33 Contracts having future budgetary implications

Contracts extending beyond one financial year may be entered into by a municipality, but if such contract extends beyond the three years covered in the annual budget, the municipality may enter into such contract only if:

- The Municipal Manager, at least sixty days before the Council meeting at which the contract is to be approved, has made the contract public, with an information statement summarising the municipality's obligations, and inviting the local community and other interested parties to submit comments or make representations.
- The Municipal Manager solicits the views and recommendations of the National Treasury and Provincial Treasury in respect to such contract, as well as those of the National Department of Provincial and Local Government, and any national department concerned with water, sanitation or electricity, if the contract relates to any of these services.
- The Council has taken into account the projected financial obligations in regard to such contract, the impact on tariffs, and the views and comments received from all the foregoing parties.
- The Council adopts a resolution determining that the municipality will secure a significant capital investment or derive a significant financial or economic benefit from the contract, and approves the entire contract exactly as it is to be executed.

A contract for purposes of this Section shall exclude any contract relating to the incurring of long-term debt by the municipality, employment contracts, contracts for categories of goods as may be prescribed, or contracts where the value of the contract is less than a prescribed value or a prescribed percentage of the annual budget.

Section 42 Price increases of bulk resources for provision of municipal services

National and provincial organs of state which supply water, electricity or any other bulk resources to municipalities or municipal entities for the provision of municipal services may increase the price of such resources only after doing all the following:

- The proposed increase must be submitted to the organ's executive authority and (where legislation so requires) to any regulatory agency for approval.
- At least forty days prior to the above submission the National Treasury and organised local government must be invited to submit written comments on the proposed increase.
- The executive authority, after taking into account the comments received, must table the price increase in Parliament or the provincial legislature, as the case may be, with a full motivation and certain other prescribed explanatory documentation.

Unless the Minister of Finance otherwise directs, a price increase must be tabled on or before 15 March to take effect from 1 July of the same year. If it is tabled after 15 March it may only take effect from 1 July of the following year.

Section 43 Applicability of tax and tariff capping on municipalities

If a national or provincial organ of state is legislatively empowered to determine the upper limits of any municipal tax or tariff, such determination takes effect on the date specified in the determination, but provided that, unless the Minister of Finance otherwise directs:

- A determination promulgated on or before 15 March shall not take effect before 1 July
 of the same year.
- A determination promulgated after 15 March shall not take effect before 1 July of the following year.
- A determination shall not be allowed to impair a municipality's ability to meet any annual
 or periodic escalations in the payments it must make in respect of any contract legally
 entered into by a municipality.

Section 53 Budget processes and related matters

The Mayor of the municipality must:

 Provide general political guidance over the annual budget process and the priorities that guide the preparation of each budget.

- Co-ordinate the annual revision of the IDP, as well as the preparation of the annual budget, and determine how the IDP is to be taken into account or is to be revised for purposes of such budget.
- Take all reasonable steps to ensure that the Council approves the annual budget before the start of the financial year to which it relates, and that the municipality's service delivery and budget implementation plan is approved within twenty-eight days after the approval of the budget.
- Ensure that the annual performance agreements for the Municipal Manager and the senior managers of the municipality are linked to measurable performance objectives which are approved with the budget and the service delivery and budget implementation plan.

The Mayor must promptly report to the Council and the MEC for Local Government any delay in tabling the annual budget, approving the service delivery and budget implementation plan or signing the annual performance agreements.

The Mayor must further ensure that the service delivery targets and quarterly performance indicators, and the monthly projections of revenues and expenses in the service delivery and budget implementation plan, are made public not later than fourteen days after these matters have been approved; and that the performance agreements of the Municipal Manager and other senior officials are similarly made public not later than fourteen days after their approval.

Section 68 Budget preparation

The Municipal Manager must assist the Mayor in performing the assigned budgetary functions and must provide the Mayor with administrative support, operational resources and the information necessary to perform these functions.

Section 69 Budget implementation

The Municipal Manager is responsible for implementing the budget, and must take reasonable steps to ensure that:

- funds are spent in accordance with the budget;
- expenses are reduced if expected revenues are less than projected; and

revenues and expenses are properly monitored.

The Municipal Manager must prepare any adjustments budget when such budget is necessary and submit it to the Mayor for consideration and tabling in Council.

The Municipal Manager must submit a draft service delivery and budget implementation plan to the Mayor fourteen days after the annual budget has been approved, and must also within the same period submit drafts of the annual performance agreements to the Mayor.

Section 70 Impending shortfalls, overspending and overdrafts

The Municipal Manager must report in writing to the Council any impending shortfalls in the annual revenue budget, as well as any impending overspending, together with the steps taken to prevent or rectify these problems.

Section 71 Monthly budget statements

The Municipal Manager must, not later than ten working days after the end of each calendar month, submit to the Mayor and Provincial Treasury a report in the prescribed format on the state of the municipality's budget for such calendar month, as well as on the state of the budget cumulatively for the financial year to date.

This report must reflect the following:

- actual revenues per source, compared with budgeted revenues;
- actual expenses per vote, compared with budgeted expenses;
- actual capital expenditure per vote, compared with budgeted expenses;
- actual borrowings, compared with the borrowings envisaged to fund the capital budget;
- the amount of allocations received, compared with the budgeted amount;
- actual expenses against allocations, but excluding expenses in respect of the equitable share;
- explanations of any material variances between the actual revenues and expenses as indicated above and the projected revenues by source and expenses by vote as set out in the service delivery and budget implementation plan;
- the remedial or corrective steps to be taken to ensure that the relevant projections
 remain within the approved or revised budget; and

projections of the revenues and expenses for the remainder of the financial year,
 together with an indication of how and where the original projections have been revised.

The report to the National Treasury must be both in electronic format and in a signed written document.

Section 54 Budgetary control and early identification of financial problems

On receipt of the report from the Municipal Manager, the Mayor must:

- consider the report;
- check whether the budget has been implemented in accordance with the service delivery and budget implementation plan;
- issue appropriate instructions to the Municipal Manager to ensure that the budget is implemented in accordance with this plan, and that the spending of funds and the collection of revenues proceed in accordance with the approved budget;
- identify any financial problems facing the municipality, as well as any emerging or impending financial problems; and
- submit to the Council within thirty days of the end of each quarter a report on the implementation of the budget and the financial state of affairs of the municipality.

If the municipality faces any serious financial problems, the Mayor must:

- promptly respond to and initiate the remedial or corrective steps proposed by the
 Municipal Manager, and
- alert the MEC for Local Government and the Council of the municipality to the problems concerned.

The Mayor may revise the details of the service delivery and budget implementation plan, but any revisions to the service delivery targets and quarterly performance indicators must be approved by the Council, and be supported by an adjustments budget. Any changes made to the projections of revenues and expenses as set out in the plan must promptly be made public.

Section 55 Report to provincial executive if conditions for provincial intervention exist

If the Council has not approved its annual budget by the first day of the financial year to which
it relates, or if the municipality encounters serious financial problems, the Mayor must

immediately report this matter to the MEC for Local Government and may recommend a provincial intervention.

Section 72 Mid-year budget and performance assessment

The Municipal Manager must assess the budgetary performance of the municipality for the first half of the financial year, taking into account all the monthly budget reports for the first six months, the service delivery performance of the municipality as against the service delivery targets and performance indicators which were set in the service delivery and budget implementation plan, and the past financial year's annual report and the progress made in resolving problems identified in such report.

The Municipal Manager must then submit a report on such assessment to the Mayor, the National Treasury and the Provincial Treasury.

The Municipal Manager may in such report make recommendations for adjusting the annual budget and for revising the projections of revenues and expenses set out in the service delivery and budget implementation plan.

In terms of Section 54(1)(f) the Mayor must promptly submit this assessment report to the Council of the municipality.

Section 73 Reports on failure to adopt or implement budget-related and other policies

The Municipal Manager must inform the Provincial Treasury, in writing, of any failure by the Council to adopt or implement any budget-related policy or a supply chain management policy, and of any non-compliance by an office bearer or political structure with such policy.

Section 75 Information to be placed on websites of municipalities

The Municipal Manager must place on the municipality's official website (inter alia) the following:

- the annual and adjustments budgets and all budget-related documents;
- all budget-related policies;
- the annual report;
- all performance agreements;
- all service delivery agreements;

- all long-term borrowing contracts;
- all quarterly reports submitted to the Council on the implementation of the budget and the financial state of affairs of the municipality.

Section 80 Establishment (of municipal budget and treasury office)

Every municipality must have a budget and treasury office comprising a Chief Financial Officer supported by appointed officials and contracted staff.

Section 81 Role of chief financial officer

The Chief Financial Officer is administratively in charge of the budget and treasury office and must, inter alia,

- assist the Municipal Manager in preparing and implementing the budget;
- perform such budgeting, financial reporting and financial management and review duties as are delegated by the Municipal Manager;
- account to the Municipal Manager for the performance of all the foregoing responsibilities.

Section 83 Competency levels of professional financial officials

The Municipal Manager, senior managers, the Chief Financial Officer and the other financial officials in a municipality must all meet prescribed financial management competency levels.

It is not clear what person or structure in the parent municipality must perform this action, but the council seems the logical party. It would also make sense for the council to consider this budget by 31 January.	Evidently such an adjustments budget may be prepared at any stage. It would make good sense, however, for the parent municipality to ent insist that the entity's revised budget be prepared and submitted to the mayor at the same time that or before the entity's proposed budget for the new financial year is considered.	Again the potential problem of different pare municipalities having different views will have to be resolved by (presumably) the mayors considered.	Adjustments budgets may be prepared by the accounting officer, and tabled in council by the Mayor "when necessary". They must be so prepared and tabled (within prescribed limits as to timing and frequency) whenever material adjustments to expenses or revenues are required, and not only when "serious financial problems" are looming. In general, adjustments budgets should preferably be tabled by or as soon as possible after 31 January, and certainly not later than 31 March when the draft annual budget for the next year is first tabled.
	Board of directors and mayor of parent municipality		Mayor
Parent municipality must consider proposed budget, and make any necessary recommendations.	Board of directors of entity may, with approval of mayor of parent municipality, revise budget of entity for certain prescribed reasons. Adjustments budget once approved by board of directors of entity must be tabled by mayor at next meeting of council of parent municipality. Adjustments budget must be made public.		If municipality faces "serious financial problems" mayor must "promptly" respond to and initiate remedial steps proposed by accounting officer, including steps to reduce expenses and tabling of adjustments budget. Mayor must also consider revisions to service delivery and budget implementation plan. (Note that only council may approve changes to service delivery targets and KPIs – these changes must therefore be tabled with the adjustments budget).

Presumably the accounting officer must make these revisions for the mayor's approval as part of the process of adjusting the annual budget. The deadline for these revisions must be by or as soon as possible after 31 January, but certainly not later than 31 March. See also 54(1) and (2).		Council meeting must be scheduled appropriately. Mayor must ensure that revisions to service delivery and budget implementation plan are "promptly" made public. (Note that no concomitant revision of performance agreements is evidently envisaged).	Board of directors of entity must consider recommendations, and if necessary submit revised budget to parent municipality.	Mayor must table (draft) annual budget of municipality at council meeting at least 90 days before start of budget year.	Mayor of parent municipality must table originally proposed or proposed revised budget (as case may be) of entity when (draft) annual budget of municipality first tabled.	Immediately after (draft) annual budget tabled in council, accounting officer must (1) make public budget and documents referred to in Section 17(3), and invite local community to submit representations in connexion with budget, and (2) submit annual budget in both printed and electronic formats to provincial treasury, and in either format to prescribed national and provincial organs of state and to other municipalities affected by the budget.	Council must give mayor opportunity (1) to respond to submissions received on (draft) annual budget and attendant documentation and (2) to revise budget, if necessary, and table amendments for consideration by council.

#### 1. DEFINITIONS

- "Accounting Officer" is the Accounting Officer of the Municipality;
- "Basic water supply" means the minimum standards of water supply services necessary for the reliable supply of water to households to support life and personal hygiene;
- "Basic sanitation" means the prescribed minimum standard of services necessary for the safe, hygienic and adequate collection, removal, disposal or purification of human excreta, domestic waste-water and sewage from households, including informal households:
- "Chief Financial Officer" means the Chief Financial Officer of the Municipality;
- "Council" means the Council of the Ugu Municipality;
- "Household" means all the people who permanently reside in the dwelling;
- "Indigent person" means a person who meets criteria on qualification for indigent support;
- "Municipality" means Ugu Local Municipality.

#### 2. THE LEGAL CONTEXT

This Policy is informed by the following legislations:
 Municipal Finance Management Act, No 56 of 2003
 Water Services Act, No 108 of 1997
 Municipal Systems Act, No. 32 of 2000, section 74.

#### 3. OBJECTIVE OF THE POLICY

- 3.1 The Ugu District Municipality fully supports the National Government's Policy on providing free basic services to the poorer of the community. In that regard it will fully co-operate in implementing the Policy.
- 3.2 However, being committed to the fundamental principle set out in paragraph 4 above, the financial implication must determine the extent to which water can be provided free to certain consumers. In conjunction with the Provincial Support Units established by the Department of Water Affairs and that Department, the Ugu District Municipality will progressively introduce the Policy to its area. Full advantage will be taken of subsidies and grants made available by other spheres of government to enable the Ugu District Municipality to implement a policy of free basic water without violin the fundamental principle. In line with the principles of transparency inherent in paragraph 7.1, the people of the area will be informed and consulted on the implementation of the Policy

as it unfolds. There are two inter-related long term objectives which will guide the Ugu Municipality in regards to the provision of free basic services and these are:

- a) The elimination of poverty in the Ugu District area, and
- b) The equal treatment of all persons in the area Whilst the historic imbalances between the citizens of South Africa are a fact, resulting in a mass of poor people badly provided with basic services, this should not be seen as normal and everlasting. Initially therefore, different levels of service must be provided at affordable or no cost, but the Policy is accepted that, over time, realistically computed, these distinction should be eliminated and everyone should be treated equally.

#### 4. PURPOSE

4.1 The primary purpose of the basic water services this Policy is to assist in promoting sustainable access to basic water supply and sanitation to all households.

#### 5. ADMINISTRATION OF FREE BASIC WATER SERVICES

In recognition of the primary importance of having a clean and adequate water supply, the South African Government in 2000 introduced the Free Basic Water Policy, which allows for households to get 6 000 litres (6kl) of water per month at no cost. Such service is dependent on the Municipality receiving equitable share from National Treasury and as determined by Council from time to time.

#### 5.2 Free basic water

#### 5.2.1 Private Connections:

Commercial, Government, Bulk users and industrial users, and other categories be retained with no Free Basic Water allocation, except for users classified in paragraph 5.2.2 below .All households who fall in the group who qualify for free basic water in terms of Ugu District the Municipality will receive a free water usage of 200 litres per day, based on the quota allocation and number of days in a meter reading period. The customer will forfeit this benefit should the consumption exceed the allocation per quota per month depending on the number of days.

#### 5.2.2 Qualification Criteria:

- a) Indigents households
- b) Rural communities where water is supplied by stand pipes
- c) Informal settlements where water is supplied by stand pipes
- d) People served from springs and borehole water in rural areas
- e) Rain water harvesting schemes

Policy

The Authority or the Authorised Provider may convey any water required as a f) temporary measure by tanker to any place where such temporary supply of water is required, subject to such conditions and period, which shall not exceed three months, as may be prescribed by it.

#### **FREE BASIC SANITATION** 6.

- Free basic sanitation shall be provided to the following 6.1
  - a) Indigents households
  - b) Rural communities where there is no sanitation infrastructure
  - c) Informal settlements

#### **EFFECTIVE DATE** 7.

The policy shall come to effect upon approval by Council.

#### **POLICY ADOPTION** 8.

This revised Policy replaces the current Policy; it has been considered and approved

- 3.2 To the extent that the differentiation envisaged in Section 97(2) of the Municipal Systems Act is discretionary,
- 3.3 The Ugu District Municipality has in terms of Section 98 of the Municipal Systems Act No. 32 of 2000 adopted By-laws to give effect to this Credit Control and Debt Collection policy, its implementation and enforcement and for this reason it is not necessary within the framework of this Policy to indicate the procedures of implementation, delegation or, otherwise, administration of this Policy apart from what is mentioned further herein.

#### 4. SUPERVISORY AUTHORITY

In terms of Section 99 of the Municipal Systems Act a municipality's executive committee or executive mayor, must:-

- 4.1 oversee and monitor:
  - a) the implementation and enforcement of the Municipality's Credit Control and Debt Collection policy and any by-laws enacted in terms of Section 98; and
  - b) the performance of the Municipal Manager in the implementing of this policy and any by-laws;
- When necessary, evaluate or review the policy and any by-laws, or the implementation of the policy and any such by-laws, in order to improve efficiency in Credit Control and Debt Collection mechanisms, processes and procedures; and
- 4.3 At such intervals as may be determined by the Council report to a meeting of the Council, except when the Council itself performs the duties mentioned in paragraphs 2.1 and 2.2.

#### 5. ROLE OF THE MUNICIPAL MANAGER

In terms of Section 100 of the Municipal Systems Act the Municipal Manager or service provider must:-

5.1 Implement and enforce the Municipality's Credit Control and Debt Collection policy and any by-laws enacted in terms of Section 98;

- 5.2 In accordance with the Credit Control and Debt Collection policy and any such bylaws, establish effective administrative mechanisms, processes and procedures to collect money that is due and payable to the Municipality; and
- 5.3 At such intervals as may be determined by the Council report prescribed particulars to a meeting of the Supervisory Authority referred to in Section 99.

#### 6. SERVICE AGREEMENTS:-
